

4 Youth Challenge Center

4.1 Security

This includes measures such as escapes, contraband and lost or misplaced equipment.

4.1.1 Security 1 Escapes: Completed

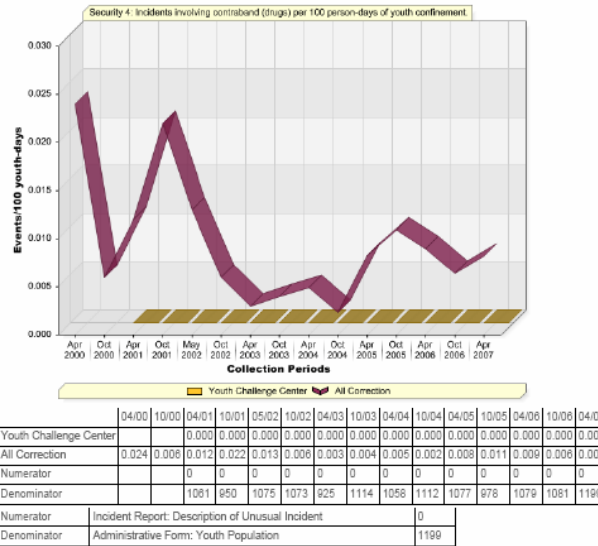

Completed escapes, walk-aways, and AWOLS per 100 person days of youth confinement.

In October '06 there was one incident reported of completed escapes, walk-aways, and AWOLS and zero incidents in April '07. The current national average for this OM is .0008.

4.1.4 Security 4 Contraband: Drugs

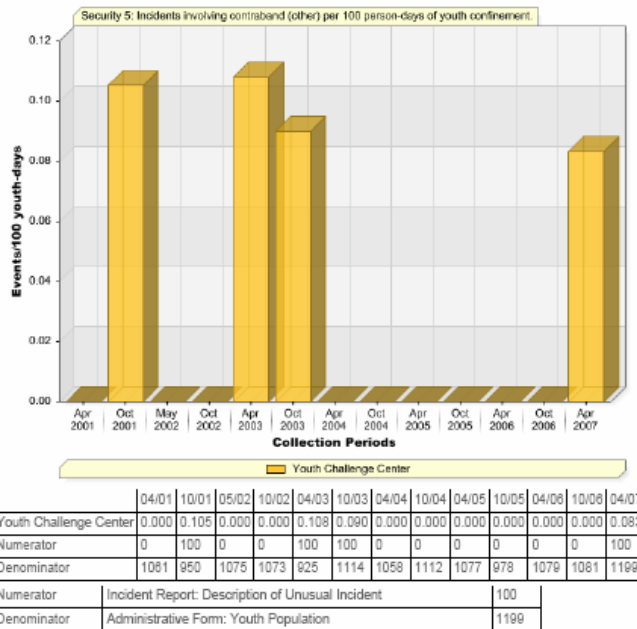

Incidents involving contraband (drugs) per 100 person days of youth confinement.

There were no incidents involving contraband (drugs) for all consecutive data collections.

4.1.5 Security 5 Contraband: Other

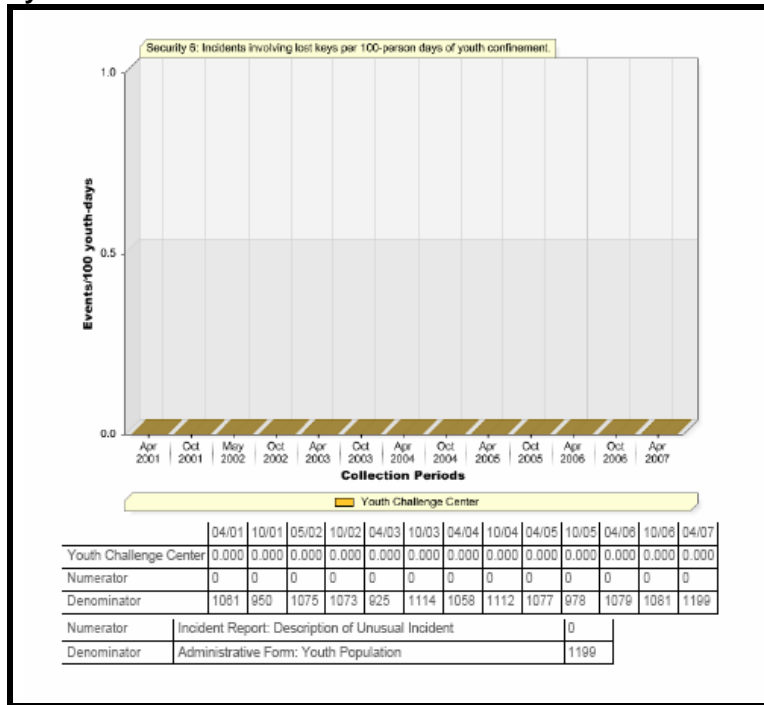

Incidents involving contraband (other) per 100 person days of youth confinement.

There was zero incidents involving contraband (other) for October '06 and one incident for April '07.

4.1.6 Security 6 Lost Keys

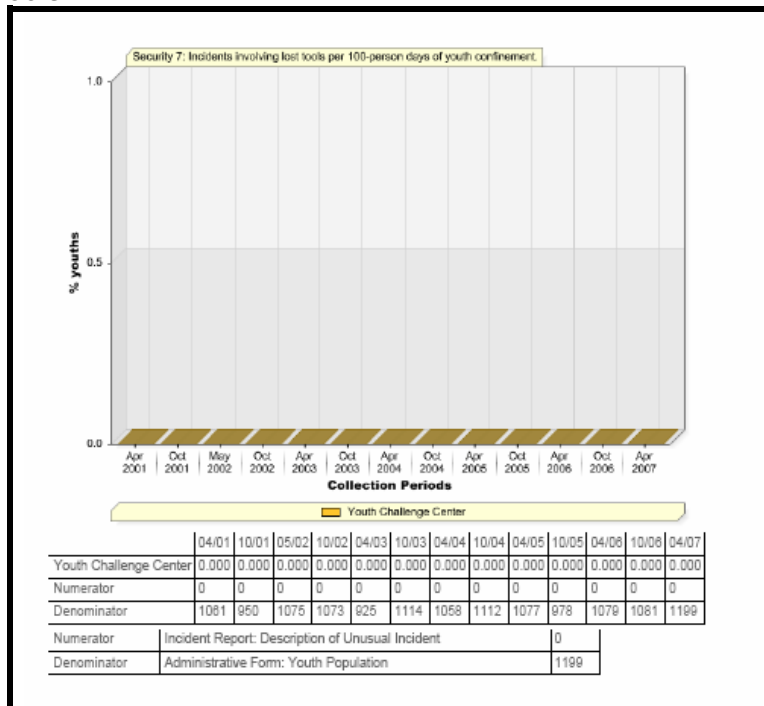

Incidents involving lost keys per 100 person days of youth confinement.

There were no incidents involving lost keys for all data collection months.

4.1.7 Security 7 Lost Tools

Incidents involving lost tools per 100 person days of youth confinement.

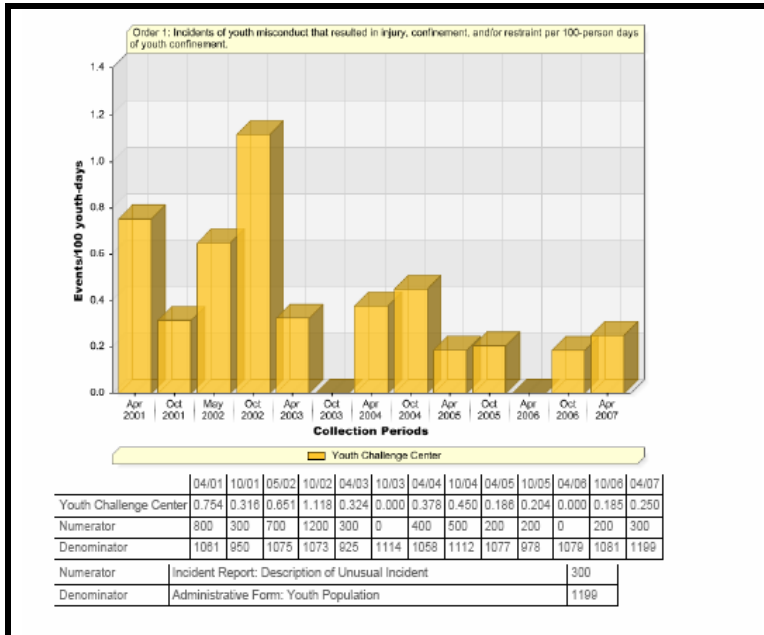

There were no incidents involving tools for all data collection months.

4.2 Order

This includes measures such as misconduct, use of restraints and isolation.

4.2.1 Order 1 Youth Misconduct

Incidents of youth misconduct per 100 person days of youth confinement.

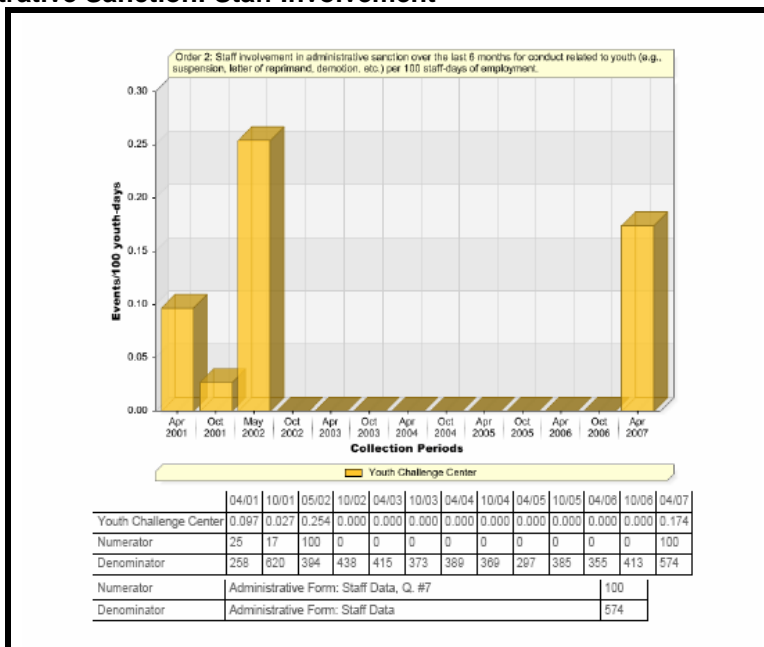

Youth misconduct increased in October '06 to two incidents. In April '07 this outcome measure increased to three incidents.

A Facility Improvement Plan (FIP) was developed for this OM in October 2002 and has been deemed successful and closed.

4.2.2 Order 2 Administrative Sanction: Staff Involvement

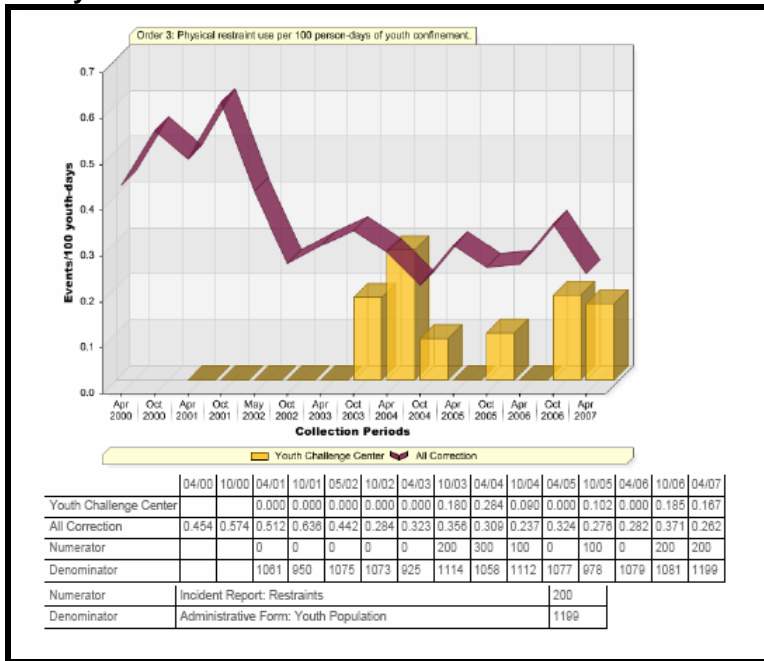

Staff involvement in administrative sanction for conduct related to youth (e.g., suspension, letter of reprimand, demotion, etc) per 100 staff days of employment.

There were no staff involved in an administrative sanction for conduct related to youth for October '06 and one incident for April '07 data collection.

4.2.3 Order 3 Restraints: Physical

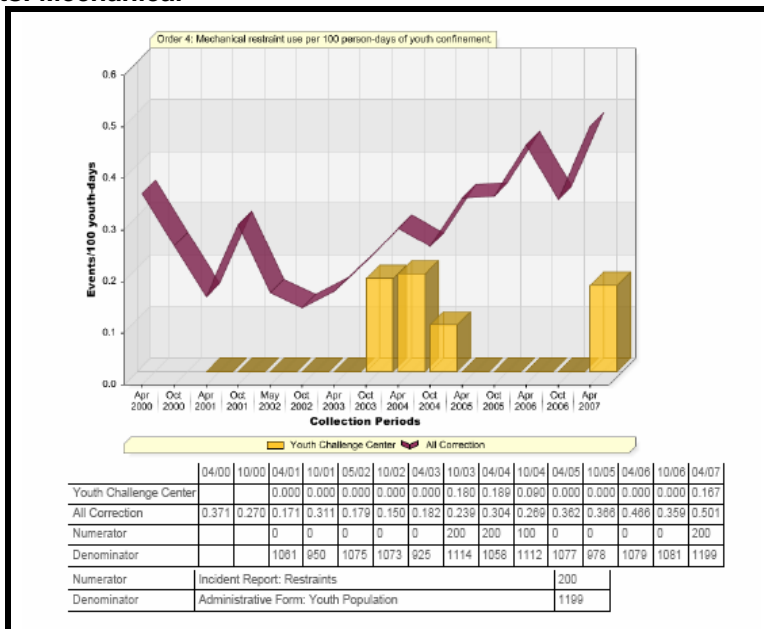

Physical restraint use
per 100 person days of
youth confinement.

Physical restraint use increased from the previous data collection to .185 incidents per 100 days in October '06. In April '07 it decreased to .167 compared to the national average of .262%.

4.2.4 Order 4 Restraints: Mechanical

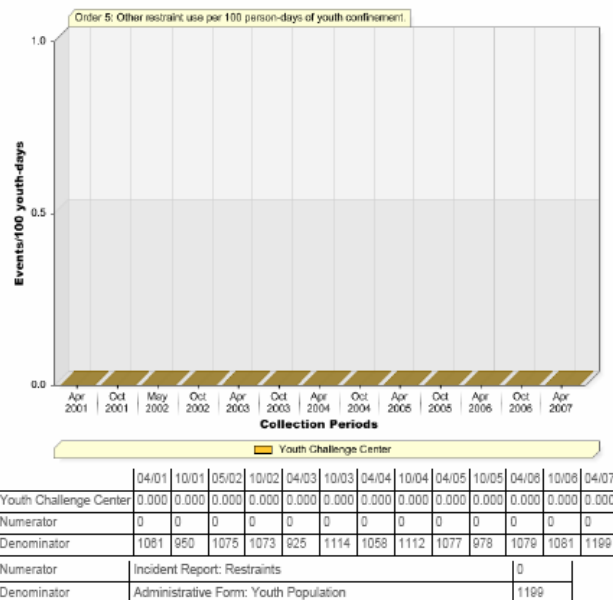

Mechanical restraint
use per 100 person
days of youth
confinement.

Mechanical restraint use remains at zero for the October data collection and increased to two incidents in April '07. YCC is below the national average, which is .359 (October) and .501 (April).

4.2.5 Order 5 Restraints: Other

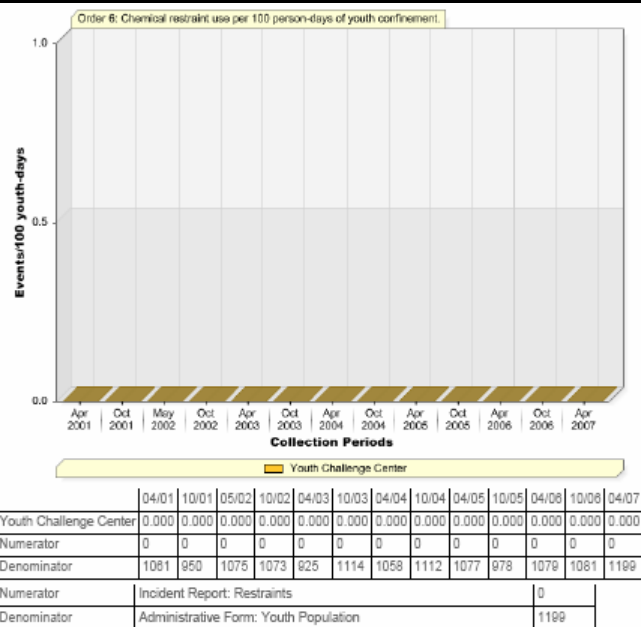

Other restraint use per 100 person days of youth confinement.

There have consistently been no incidents of other restraint use for all data collections.

4.2.6 Order 6 Restraints: Chemical

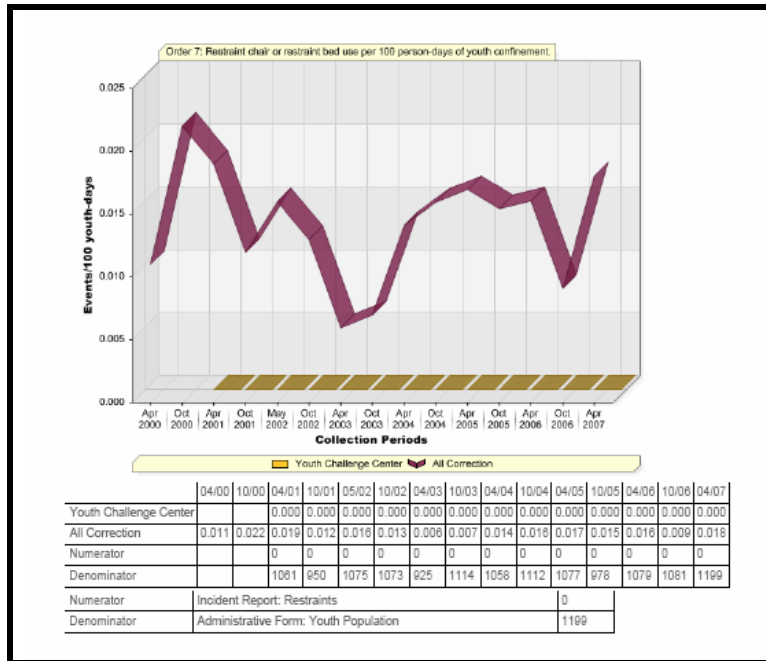

Chemical restraint use per 100 person days of youth confinement.

There have been no incidents of chemical restraint use for all data collections.

4.2.7 Order 7 Restraints: Chair/ Bed

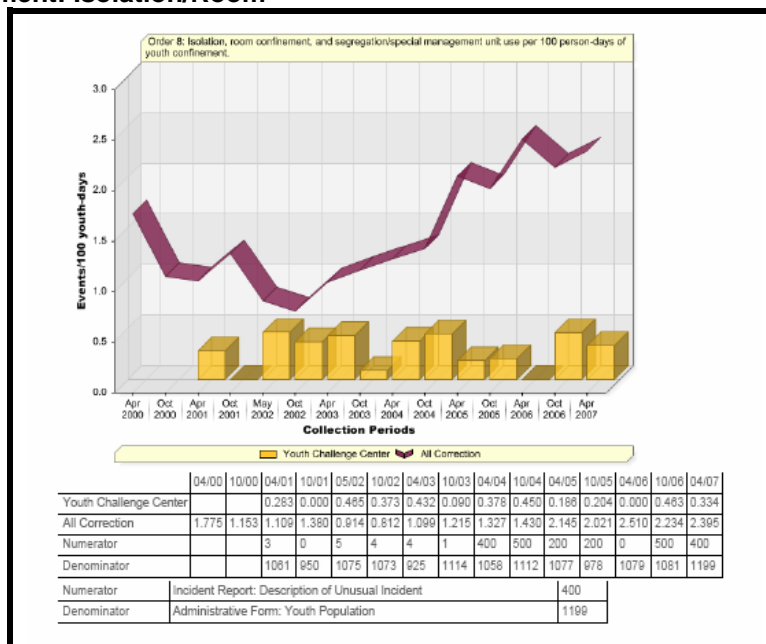

Restraint chair or restraint bed use per 100 person days of youth confinement.

Restraint chair/restraint bed use remains at zero for all data collections to date.

4.2.8 Order 8 Confinement: Isolation/Room

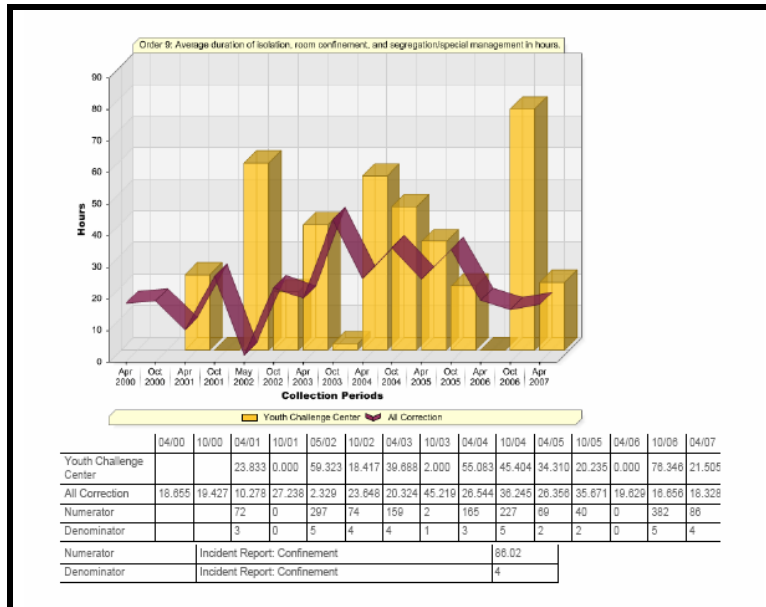

Use of isolation and room confinement and segregation/special management unit use per 100 person days of youth confinement.

Use of isolation and room confinement was five incidents, rate of .463 per 100 person days of youth confinement for October '06 which is below the national average of 2.234. This outcome measure decreased in April '07 to four incidents, which remains better than the national average of 2.395.

4.2.9 Order 9 Confinement: Duration

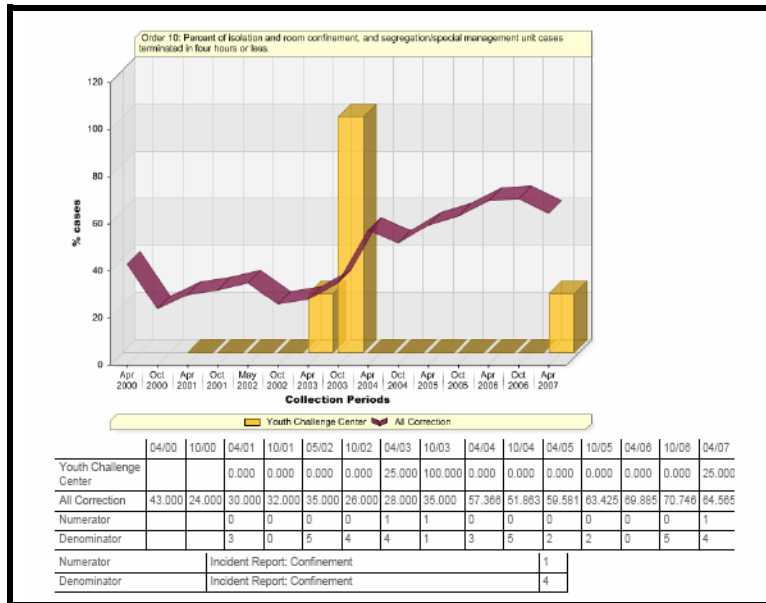

Average duration of isolation and room confinement and segregation/special management unit in hours.

Average duration of isolation and room confinement in hours increased in October '06 to 76.346 hours and decreased again in April '07 to 21.505 hours. The national average for April is 18.328 hours.

4.2.10 Order 10 Confinement: Termination Time 4 hours or less

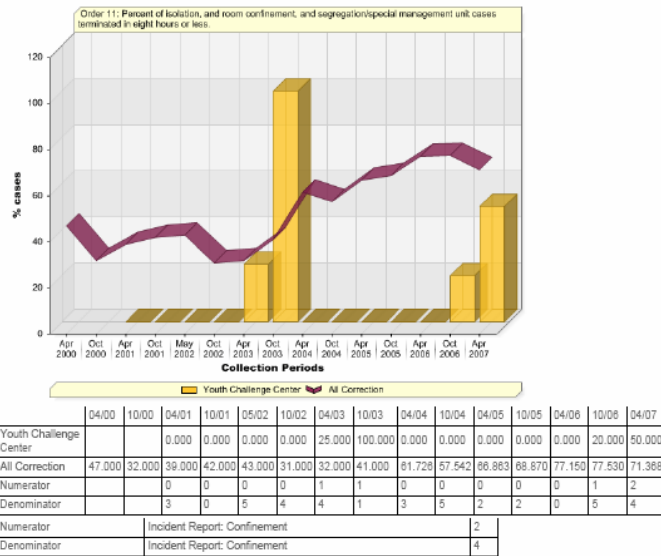

Percent of isolation or room confinement and segregation/special management unit cases terminated in four hours.

Percent of isolation or room confinement terminated in four hours or less is zero percent for October '06 and 25% for April '07. The national averages are 71% in October and 65% in April.

4.2.11 Order 11 Confinement: Termination Time of 8 hours or less

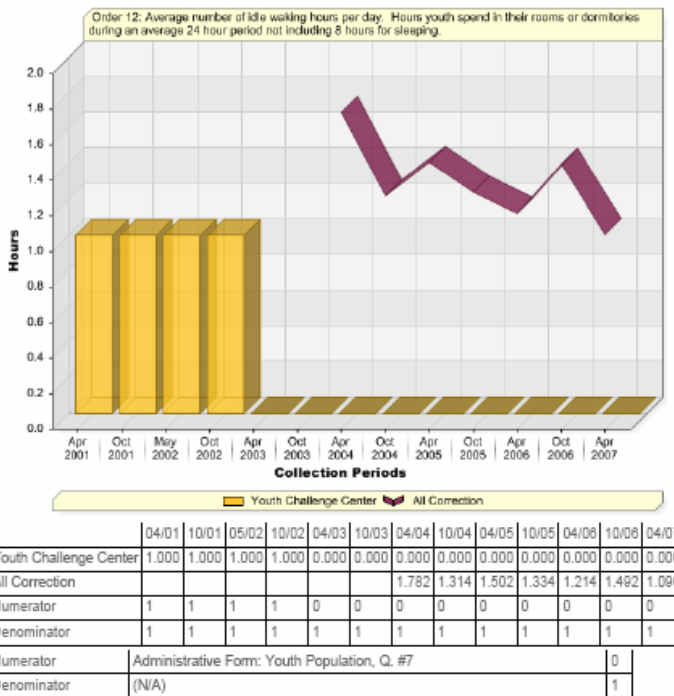

Percent of isolation or room confinement and segregation/special management unit cases terminated in eight hours or less.

Percent of isolation or room confinement cases terminated in eight hours or less is 20% for October and 50% for April '07. The national average for October and April are 77% and 71% respectively.

4.2.12 Order 12 Idle Hours

Number of idle hours youth spend in their rooms or dorms not including 8 hours for sleeping.

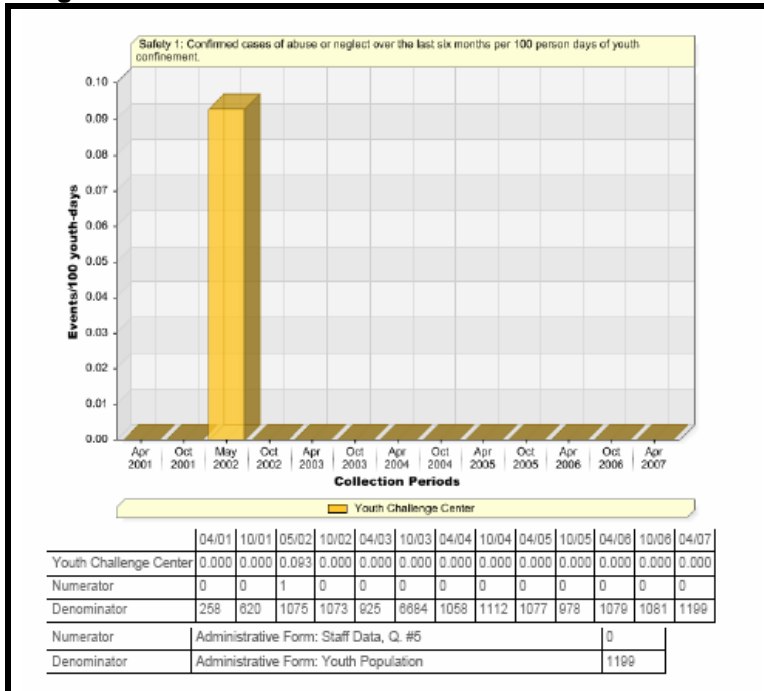

Average number of idle waking hours per day is zero for the ninth consecutive data collection.

4.3 Safety

This includes injuries, overpopulation, self-destructive behavior, assaults, and fear for safety.

4.3.1 Safety 1 Abuse or Neglect

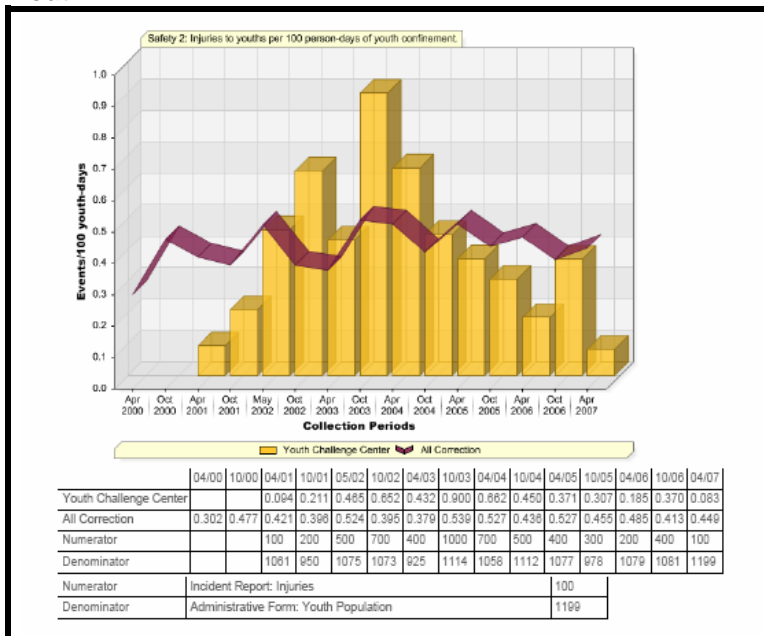

Number of confirmed cases of abuse or neglect over the last six months per 100 person days of youth confinement.

There were no confirmed cases of abuse or neglect for the October or April data collections.

4.3.2 Safety 2 Injuries: Youth

Injuries to youth per 100 person days of youth confinement.

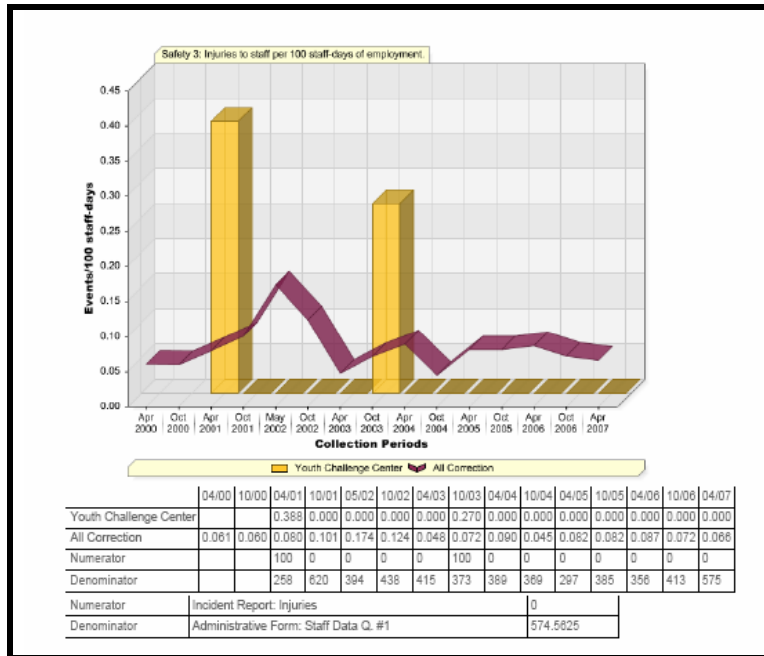

Injuries to youth per 100 person days increased to a rate of .370 incidents per 100 days in October. In April, the number of injuries decreased to one incident for a rate of .083. April's national average is currently .449.

A FIP was developed for this OM in October 2002 and has been deemed successful and closed.

4.3.3 Safety 3 Injuries: Staff

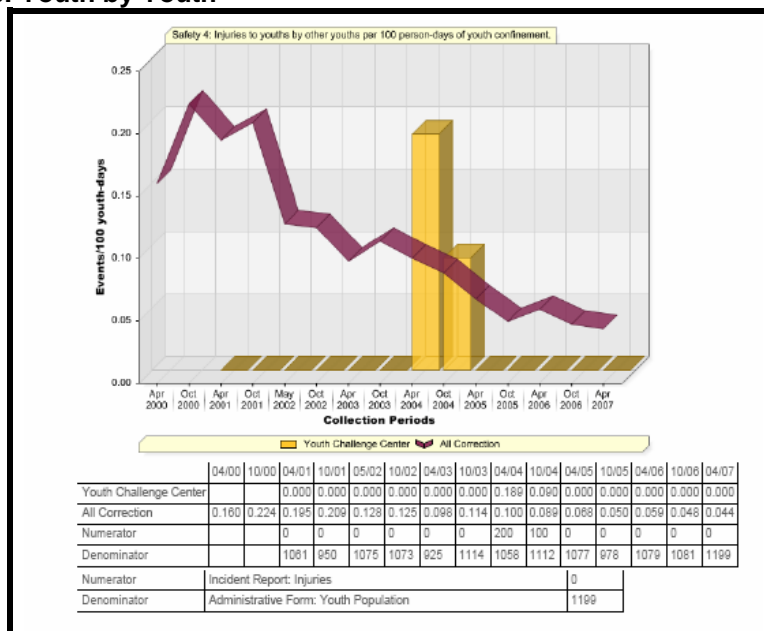

Injuries to staff per 100 staff days of employment.

For the October '06 and April '07 data collections, there were no reported injury to staff per 100 staff days of employment.

4.3.4 Safety 4 Injuries: Youth by Youth

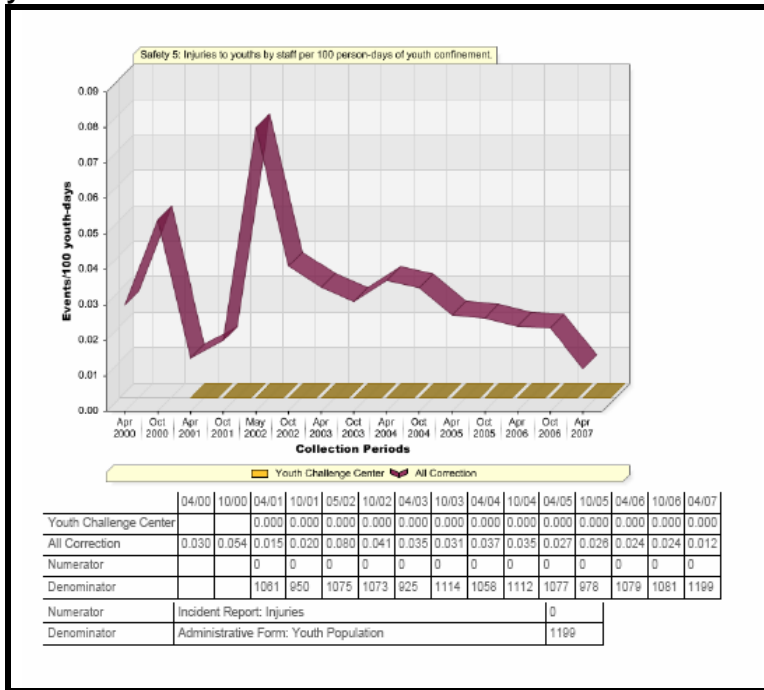

Injuries to youth by other youth per 100 person days of youth confinement.

Injuries to youth by other youth per 100 person days of confinement, is zero incidents for October and for April.

4.3.5 Safety 5 Youth by Staff

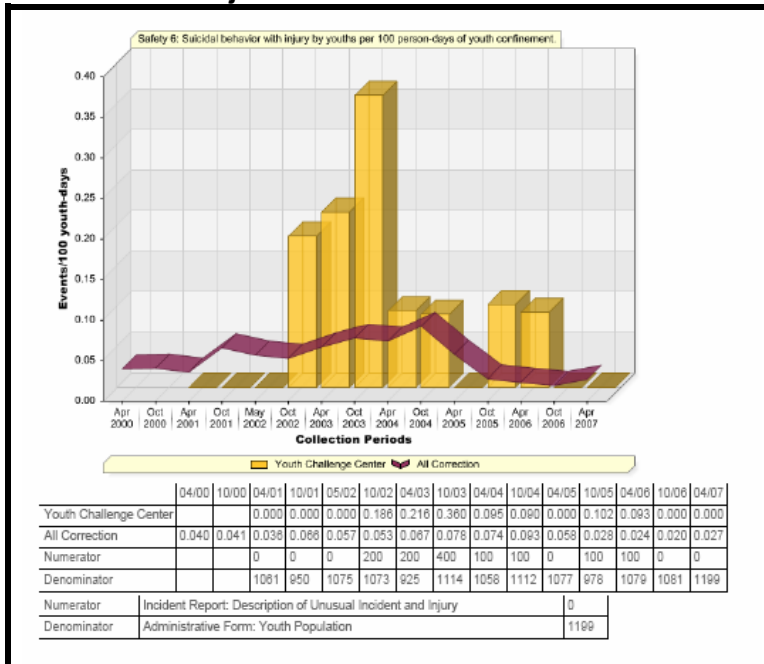

Injuries to youth by staff per 100 person days of youth confinement.

Injuries to youth by staff have remained at zero for all data collections. The national average for the April '07 data collection is .012.

4.3.6 Safety 6 Suicidal Behavior: With Injuries

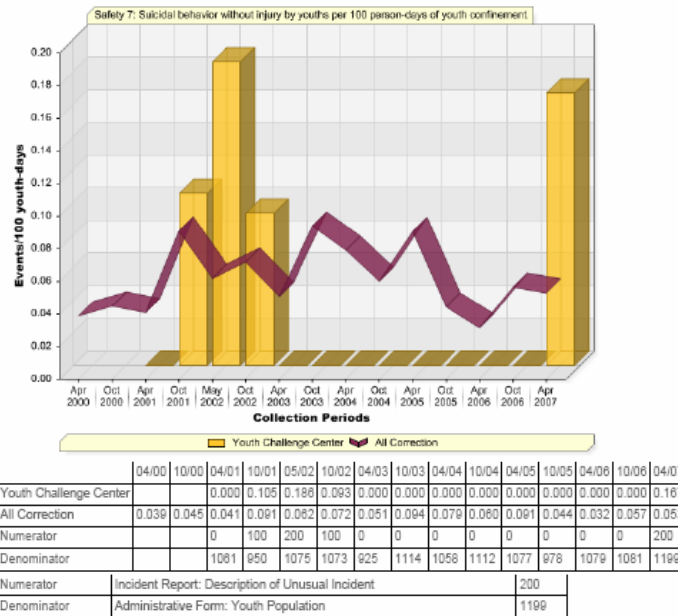

Suicidal behavior with injury by youth per 100 person days of youth confinement.

Suicidal behavior with injury by youth is zero percent for both data collections. The national average is .020 incidents per 100 person days for October and .027 for April.

4.3.7 Safety 7 Suicidal Behavior: Without Injuries

Suicidal behavior without injury by youth per 100 person days of youth confinement.

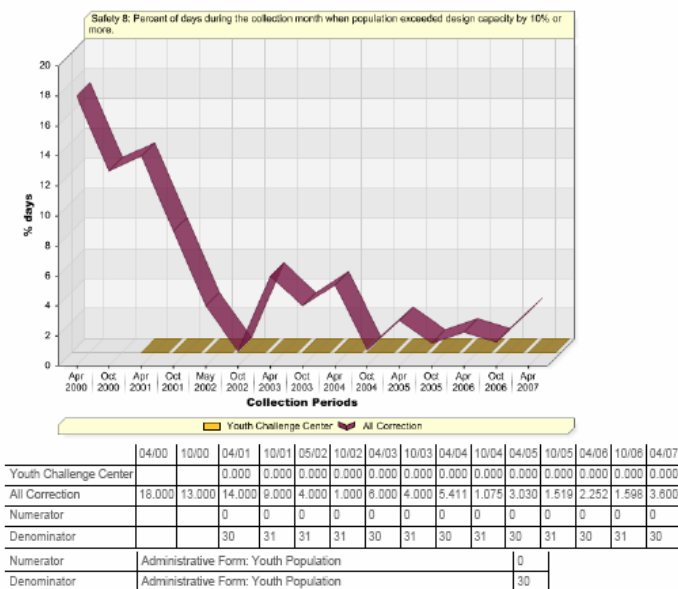

Suicidal behavior without injury by youth was zero percent in October '06 and two incidents in April '07, a rate of .167. The national average for this OM in April '07 was .053.

A FIP was developed for this OM in April 2001 and has been deemed successful and closed.

4.3.8 Safety 8 Design Capacity

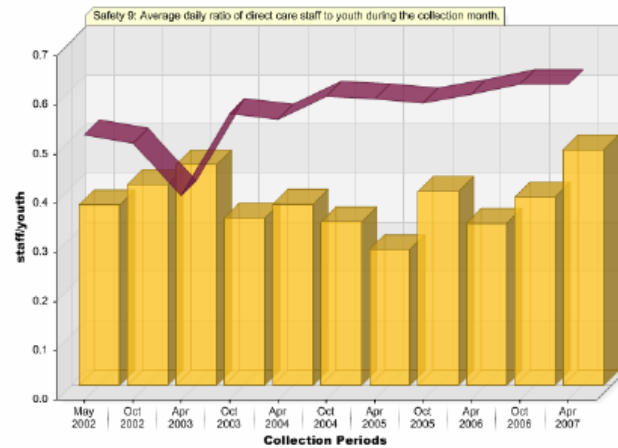

Percent of days during the collection months when population exceeded design capacity by 10 percent or more.

Percent of days during the assessment period when the population exceeded the design capacity by 10% or more is again zero for the thirteenth consecutive data collection.

4.3.9 Safety 9 Ratio: Direct Care Staff To Youth

Average ratio of direct care staff to youth for each day during the collection month.

	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

Denominator	Administrative Form: Youth Population										1199

Average ratio of staff to youth decreased in October '06 for a rate of .382 and increased in April '07 for a rate of .479. The national averages for these data collections are .642 and .642.

4.3.10 Safety 10 Injuries: Application of Physical/Mechanical Restraints

Youth injured during the application of physical and/or mechanical restraints per 100 person days of youth confinement.

	04/00	10/00	04/01	10/01	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

Numerator	Incident Report: Injuries										0				
Denominator	Administrative Form: Youth Population										1199				

Youth injured during the application of physical or mechanical restraints has continued to be zero for all data collection periods to date.

4.3.11 Safety 11 Assaults: Youth

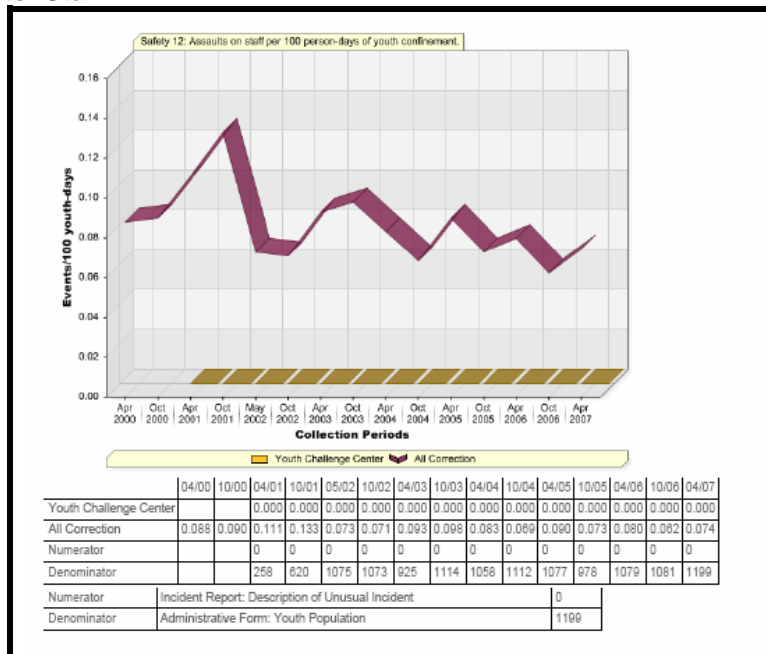

Assaults on youth per 100 person days of youth confinement.

Assaults on youth per 100 person days of youth confinement increased to two incidents (.185) in October '06 and decreased to one incident in April '07. The current national average for this OM is .251.

4.3.12 Safety 12 Assaults: Staff

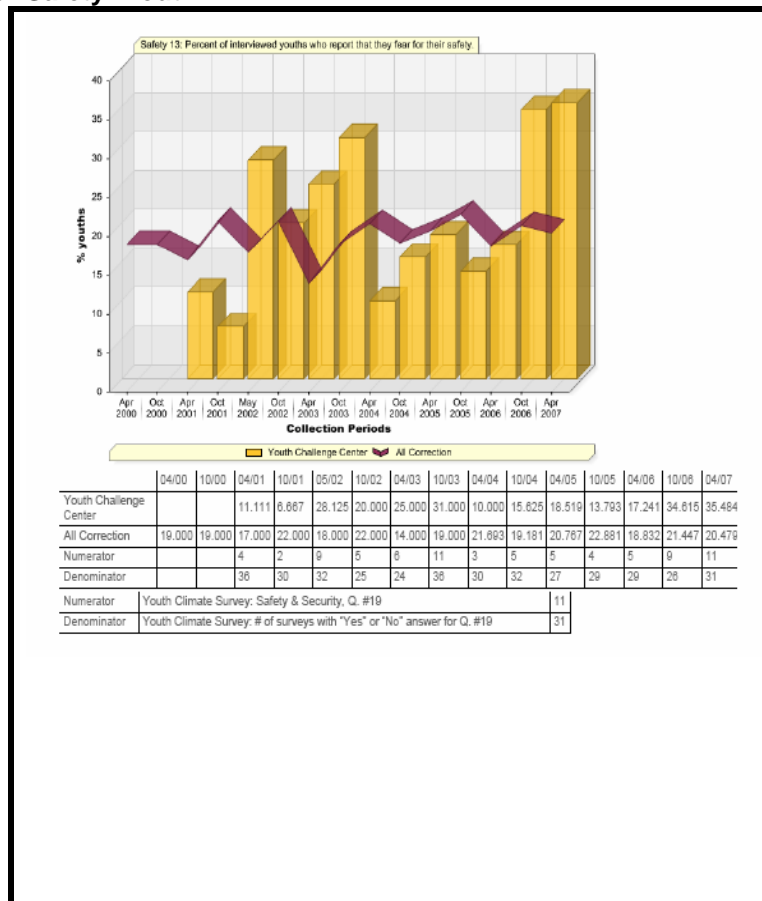

Assaults on staff per 100 person days of youth confinement.

Assaults on staff per 100 days of youth confinement continues to be zero for all data collection periods to date.

4.3.13 Safety 13 Fear For Safety: Youth

Percent of interviewed youth who report that they fear for their safety.

The percent of interviewed youth that report fearing for their safety has increased from the previous data collection. In October '06, 35% of youth feared for their safety compared to 21% nationally. In April '07, 35% of youth feared for their safety compared to 20% nationally.

A FIP was developed for this OM in October 2002 and re-opened in October 2006. See details listed below.

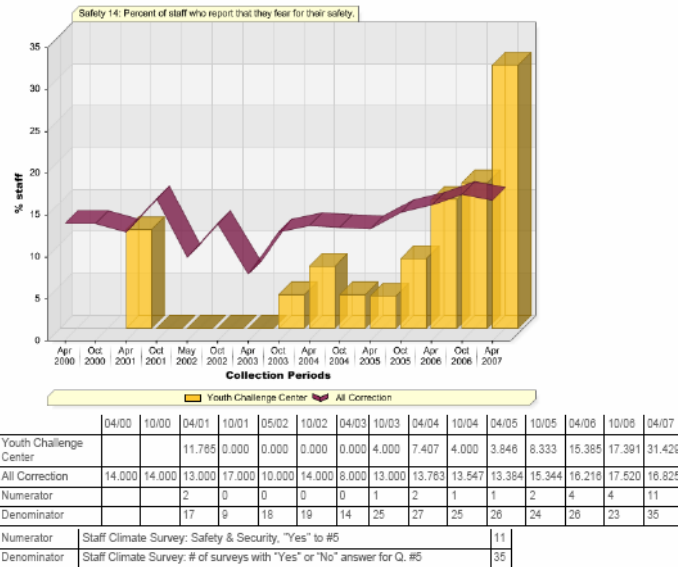

4.3.13.1

Problem: Safety 13 has significantly increased. With new management in the Youth Challenge Center program a fresh approach to the internal fear surveys will take place. They will be administered every two months.

Final Solution: The treatment director's will take the lead on this FIP and will communicate the survey outcomes back to the senior staff involved. One major goal is to determine if the known fears can be remedied or if it is beyond our control. Discussion of fear concerns from past fear surveys dealt with the following items: (spiders, going home, etc. No significant trends have been established from past surveys) State coordinator is going to collaborate with other jurisdictions to see if they have successful action steps that we might incorporate.

4.3.14 Safety 14 Fear For Safety: Staff

Percent of staff who report that they fear for their safety.

Four staff reported that they fear for their safety for the October data collection for a rate of 17%. This increased to eleven staff (31%) in April. The national average is currently 17%.

A FIP was developed for this OM in April 2005, reviewed bi-annually and is currently open. See details below.

4.3.14.1

Problem: Staff reporting that they fear for their safety has significantly increased. With new staff and new program management a fresh approach to the internal fear surveys will take place. They will be administered not only to direct care program staff but also to direct care education staff at different times. The (FIP) team will then identify what the fears are, and what organizational program they are coming from (program, education, maintenance team members).

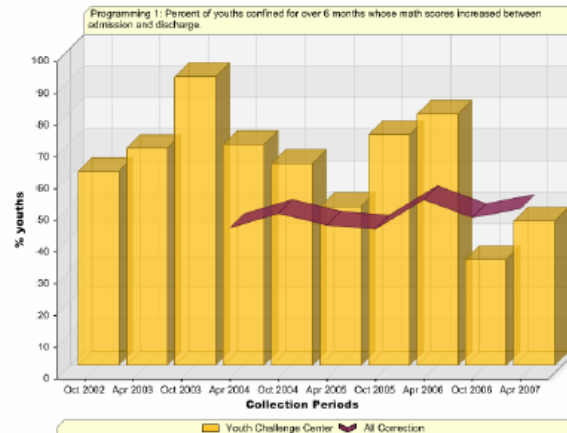

Final Solution: The treatment director's will take the lead on this (FIP) and communicate the survey outcomes back to the senior staff involved. One goal is to determine if the known fears can be remedied or if it is beyond our control. Discussion of fear concerns from past fear surveys dealt with the following items: (poor radios, difficult youth, lack of staff) Many transitional changes have occurred at STAR Academy this last year and many staff have shifted responsibilities. A new "Youth Conduct of Standards" operational memorandum has been established to help with the program transition. New radios have been ordered and each staff will maintain their own, overfill positions have been approved as well as hiring more temps. New de-escalation training has become available and will be reviewed with staff. (Jireh) Better communication among program staff has been established. (ALERT Sheets/All Staff email) On site supervisor and roaming staff have been established which has helped in situations and staff coverage. State PbS Coordinator will collaborate with other jurisdictions to see if they have successful action steps that we might be able to incorporate. Tasks have been developed and are currently being implemented to improve this outcome measure. Staff fear surveys are conducted regularly and are discussed with staff. Serious incidents are discussed to help process through the different situations.

4.4 Programming

This includes academic progress as well as measures pertaining to mental health, social skills, substance abuse, individual treatment plans [ITP], family contacts and volunteers.

4.4.1 Programming 1 Scores: Math

Percent of youth confined for over 6 months whose math scores increased between admission and discharge.

	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07
Youth Challenge Center	61.111	68.421	91.000	69.565	63.636	50.000	72.727	79.167	33.333	45.455
All Correction				47.683	52.252	48.521	47.312	56.582	50.951	53.766

Denominator	Youth Record: Intake, Q. #1 & Q. #4									
										10
										22

In the YCC program, 33% of youth confined over 6 months had math scores increase between admission and discharge for October '06 and 45% for April '07. The current national average for this OM is 54%.

A Facility Improvement Plan (FIP) was developed for this OM in October 2001 and April 2005 and has been deemed successful and closed.

4.4.2 Programming 2 Scores: Reading

Percent of youth confined for over 6 months whose reading scores increased between admission and discharge.

	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

Denominator	Youth Record: Intake, Q. #1 & Q. #4									
										12
										22

In the YCC program, 58% of youth confined over 6 months had reading scores increase between admission and discharge for October '06 and 54% for April '07. The current national average for this OM is 49%.

A FIP was developed for this OM in October 2001 and in April 2005 and has been deemed successful and closed.

4.4.3 Programming 3 Admission: Math Test

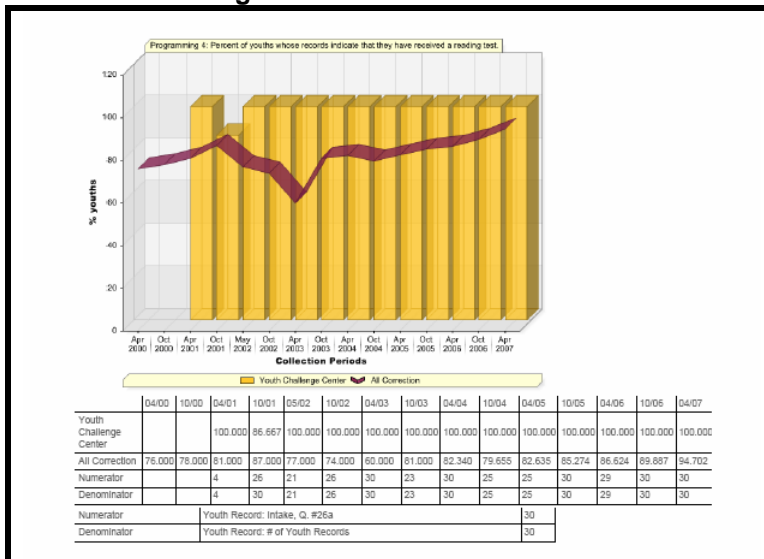

Percent of youth whose records indicate that they received a math test at admission.

Percent of youth whose records indicate they have received a math test at admission has been 100% for the past eleven consecutive data collections and above the national average. The current national average for this OM is 95%.

4.4.4 Programming 4 Admission: Reading Test

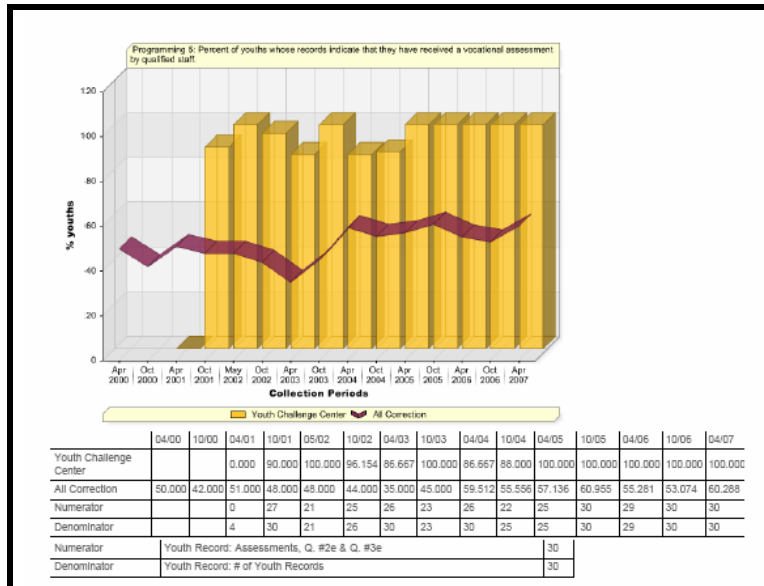

Percent of youth whose records indicate that they received a reading test at admission.

Percent of youth whose records indicate they have received a reading test at admission has been 100% for the past eleven data collections to date and above the national average. The current national average for this OM is 95%.

4.4.5 Programming 5 Admission: Vocational Assessment

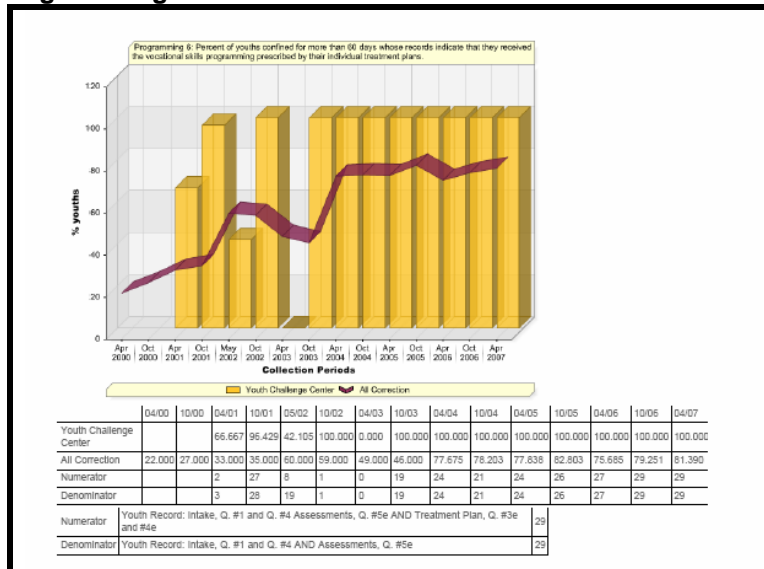

Percent of youth whose records indicate that they received a vocational assessment by qualified staff.

Percent of youth whose records indicate they have received a vocational assessment by qualified staff remains at 100% for the last five data collections. The national averages for these two data collections are 53% and 60%.

4.4.6 Programming 6 Programming: Vocational Skills

Percent of youth confined for more than 60 days whose records indicate that they received the vocational skills programming prescribed by their individual treatment plans.

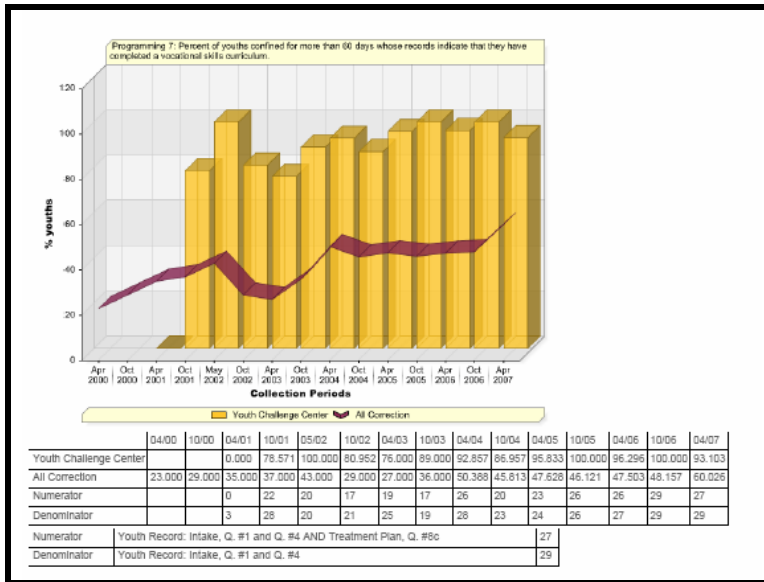

Percent of youth confined for more than 60 days whose records indicate they've received vocational skills programming remains at 100% for both reporting periods, compared to the national average of 79% and 81% respectively.

A FIP was developed for this OM in April 2003 and has been deemed successful and closed.

4.4.7 Programming 7 Curriculum: Vocational Skills

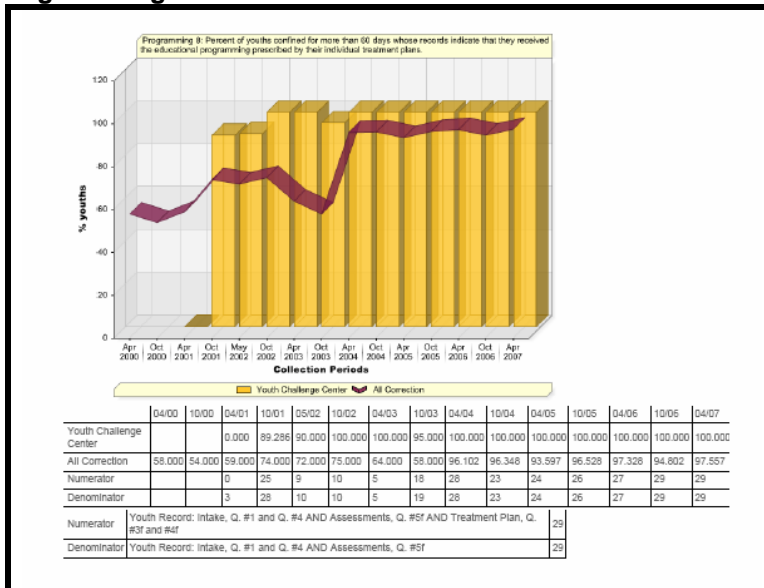

Percent of youth confined for more than 60 days whose records indicate that they have completed a vocational skills curriculum.

In the YCC program, 100% of youth confined for more than 60 days in October '06 have records that indicate that they've completed a vocational skills curriculum. This decreased to 93% in April '07. YCC has remained above the national average for all consecutive data collections.

4.4.8 Programming 8 Programming: Educational

Percent of youth confined for more than 60 days whose records indicate that they received the educational programming prescribed by their individual treatment plans.

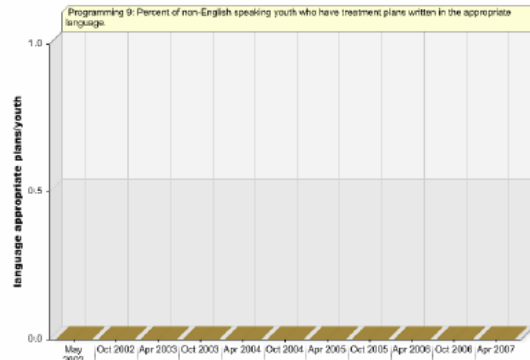

Percent of youth confined for more than 60 days whose records indicate they've received the education programming as prescribed in their Individual Treatment Plan (ITP) is 100% for both reporting periods. YCC is above the national average, which is currently 97%.

A FIP was developed for this OM in April 2001 and has been deemed successful and closed.

4.4.9 Programming 9 Non English Speaking Youth

Percent of non-English speaking youth who have treatment plans written in the appropriate language.

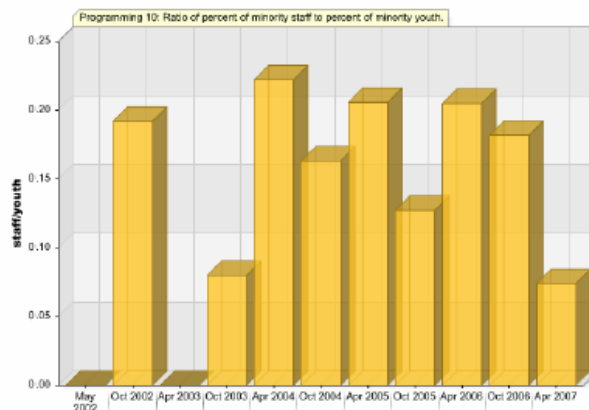

Collection Periods											
Youth Challenge Center											
	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07
Youth Challenge Center	0.000	0.000	0.000	0.000	0.000	0.000	0.000	0.000	0.000	0.000	0.000
Numerator	0	0	0	0	0	0	0	0	0	0	0
Denominator	0	0	0	0	0	0	0	0	0	0	0
Numerator	Youth Record: Treatment Plan, Q. #2 and Q. #2a										0
Denominator	Youth Record: Treatment Plan, Q. #2										0

Percentage of non-English speaking youth who have treatment plans written in the appropriate language did not apply to YCC for the October '06 nor the April '07 data collections.

4.4.10 Programming 10 Minority Ratio

Ratio of percent of minority staff to percent of minority youth.

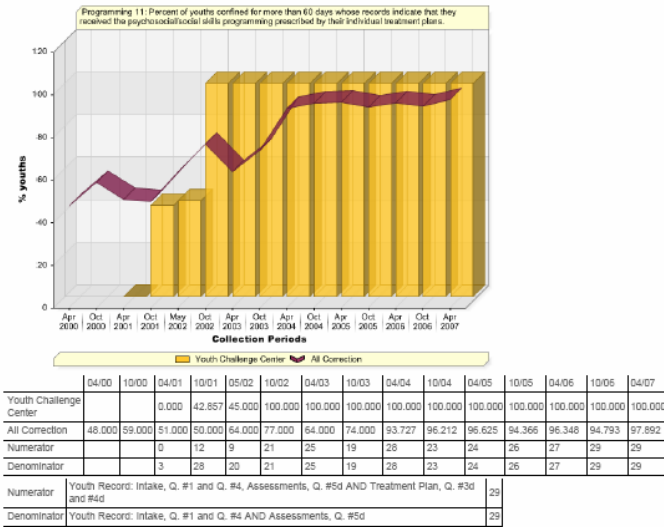

Collection Periods											
Youth Challenge Center											
	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07
Youth Challenge Center	0.000	0.192	0.000	0.080	0.222	0.163	0.206	0.127	0.205	0.182	0.074

Numerator	Administrative Form: Youth Population, Q. #2										0.04
Denominator	Administrative Form: Youth Population, Q. #1										0.54

Ratio of minority staff to minority youth decreased to .182 for October '06, and .074 for April '07.

4.4.11 Programming 11 Programming: Psychosocial/Social Skills

Percent of youth confined for more than 60 days whose records indicate that they received psychosocial/social skills programming prescribed by their individual treatment plans.

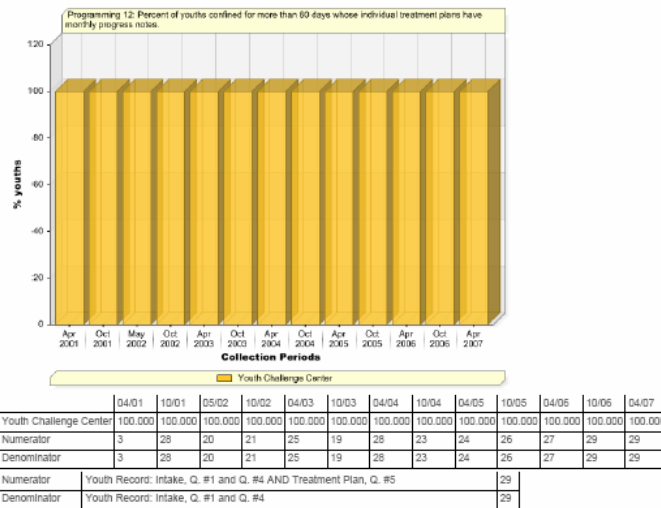

Percent of youth confined for more than 60 days whose records indicate they've received the social skills programming as prescribed in their ITP remains at 100% for both reporting periods. The current national average for this OM is 98%.

A FIP was developed for this OM in April 2001 and has been deemed successful and closed.

4.4.12 Programming 12 Monthly Progress Notes

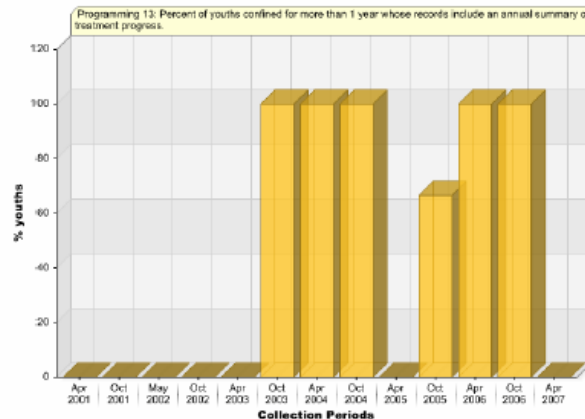

Percent of youth confined for more than 60 days whose individual treatment plans have monthly progress notes.

Percent of youth confined for more than 60 days whose ITP's have monthly progress notes has continued to be 100% for all data collections.

4.4.13 Programming 13 Annual Summary Treatment Progress

Percent of youth confined for more than 1 year whose records include an annual summary of treatment progress.

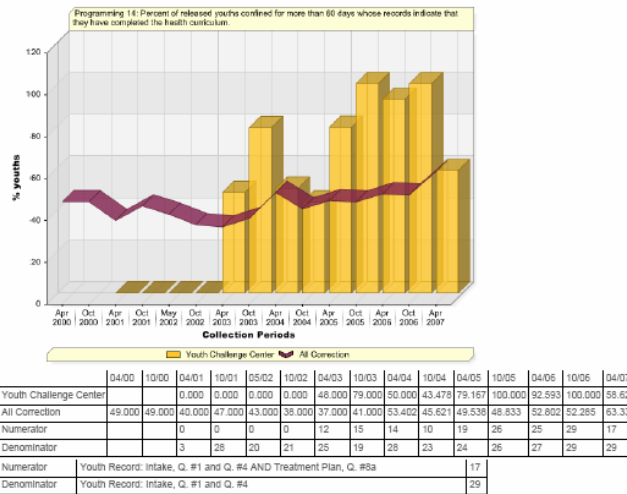

Percent of youth confined for more than 1 year whose records include an annual summary was 100% for October '06 and not applicable for April '07.

A FIP was developed for this OM in May 2002 and has been deemed successful and closed.

	04/01	10/01	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

Numerator	Youth Record: Intake, Q. #1 and Q. #4 AND Treatment Plan, Q. #5												0
Denominator	Youth Record: Intake, Q. #1 and Q. #4												0

4.4.14 Programming 14 Curriculum: Health

Percent of youth confined for more than 60 days whose records indicate that they have completed the health curriculum.

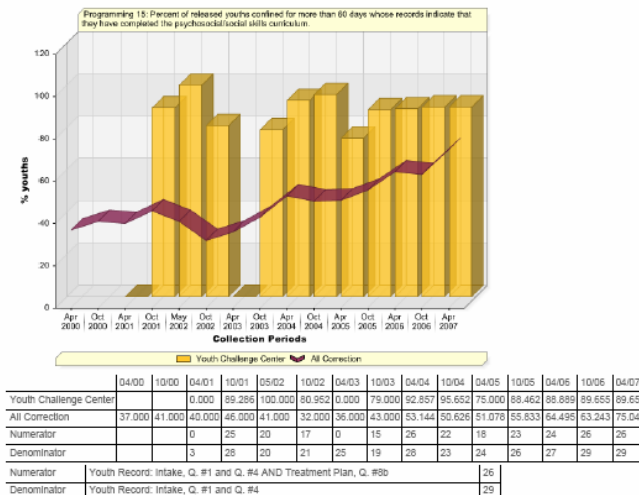

Percent of youth confined over 60 days whose records indicate they have completed the health curriculum increased to 100% in October '06 and then decreased to 59% in April '07.

YCC Facility Improvement Team is monitoring this OM closely and believes an increase in this OM will be evident due to the filled wellness instructor position.

A FIP was developed for this OM in October 2001 and again in April 2004 and has been deemed successful and closed.

4.4.15 Programming 15 Curriculum: Psychosocial/Social Skills

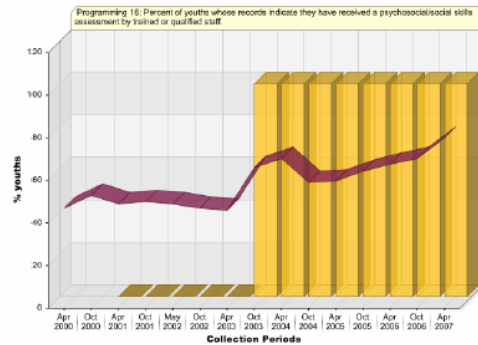

Percent of youth confined for more than 60 days whose records indicate that they have completed the psychosocial/social skills curriculum.

In October '06 and April '07, 89% of youth confined over 60 days had records to indicate they have completed the social skills curriculum. The current national average is 75%.

4.4.16 Programming 16 Assessment: Psychosocial/Social Skills

Percent of youth whose records indicate they have received a psychosocial/social skills assessment.

	04/00	10/00	04/01	10/01	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

Numerator	Youth Climate Survey: Programs, Q. #15 and #15B										23
Denominator	Youth Climate Survey: # of Youth Climate Surveys (for youth who indicated "Yes" to #15)										25

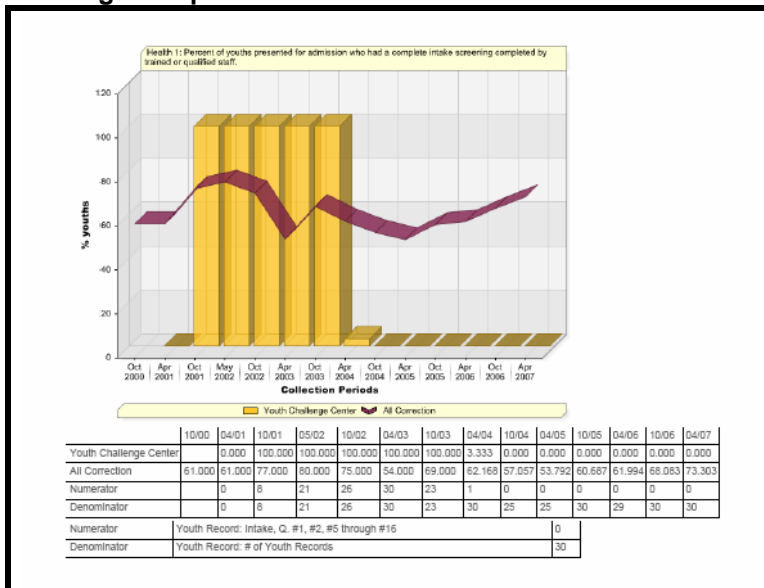

In October '06, 100% of youth said they know what level they are on, 92% of youth knew their level in April '07 compared to 80% nationally.

4.5 Health

This includes intake, ITP implementation, juvenile awareness of services, abuse by staff.

4.5.1 Health 1 Intake Screening: Complete

Percent of youth presented for admission who had a complete intake screening by trained or qualified staff.

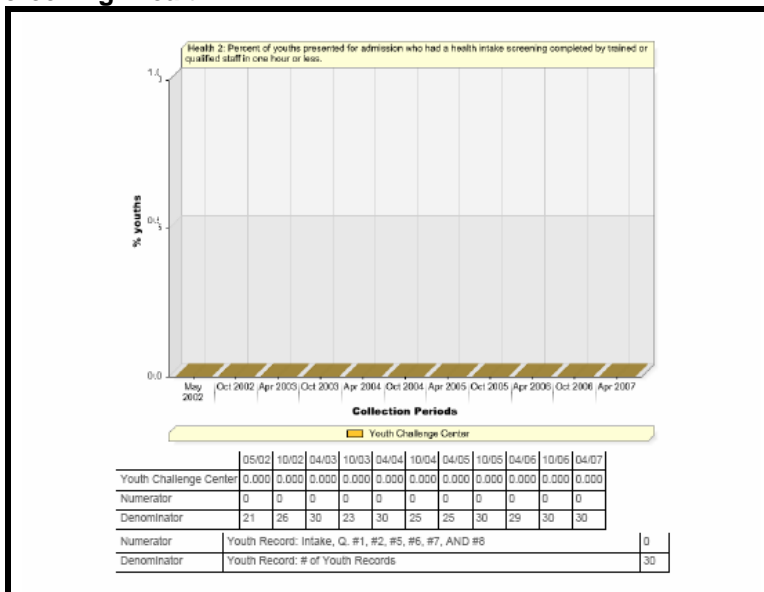

For both reporting periods, zero percent of youth at admission had a complete intake screening from trained and qualified staff.

Note: All youth admitted to STAR receive a complete intake screening but it is done at the Intake and Holding Center.

4.5.2 Health 2 Intake Screening: Health

Percent of youth presented for admission who had a health intake screening completed by trained or qualified staff in one hour or less.

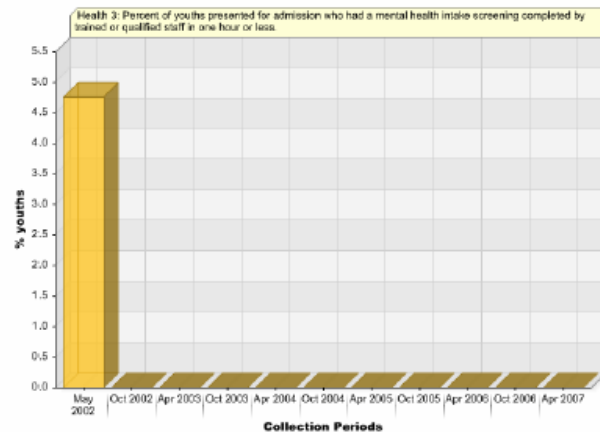

For both reporting periods, zero percent of the youth at admission to YCC had a health intake screening in one hour or less.

Note: Health Intake screenings are all completed by trained and qualified staff within the first hour of admission, but is completed at Custer Intake & Holding Center; therefore, the outcome measures for this screening reflect zero for YCC.

4.5.3 Health 3 Intake Screening: Mental Health

Percent of youth presented for admission who had a mental health intake screening completed by trained or qualified staff in one hour or less.

	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

Numerator	Youth Record: Intake, Q, #1, #2, #13, #14, #15, AND #16										0
Denominator	Youth Record: # of Youth Records										30

None of the youth at admission to YCC had suicide prevention screening in one hour or less.

Note: Suicide Prevention screenings are all completed by trained and qualified staff within the first hour of admission, but is completed at Custer Intake & Holding Center; therefore, the outcome measures for this screening reflect zero for YCC.

4.5.5 Health 5 Intake Screening: Completed in Less than 1 Hour

Percent of youth presented for admission who had an intake screening completed by trained or qualified staff in one hour or less.

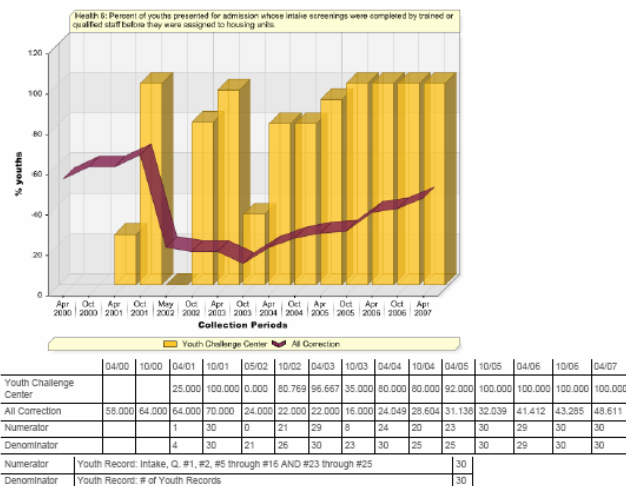

None of the youth at admission to YCC had a complete intake screening by trained or qualified staff in one hour or less.

Note: Complete Intake Screenings are all completed by trained and qualified staff within the first hour of admission, but is completed at Custer Intake & Holding Center; therefore, the outcome measures for this screening reflect zero for YCC.

4.5.6 Health 6 Intake Screening Completed before Assigned to Housing Unit

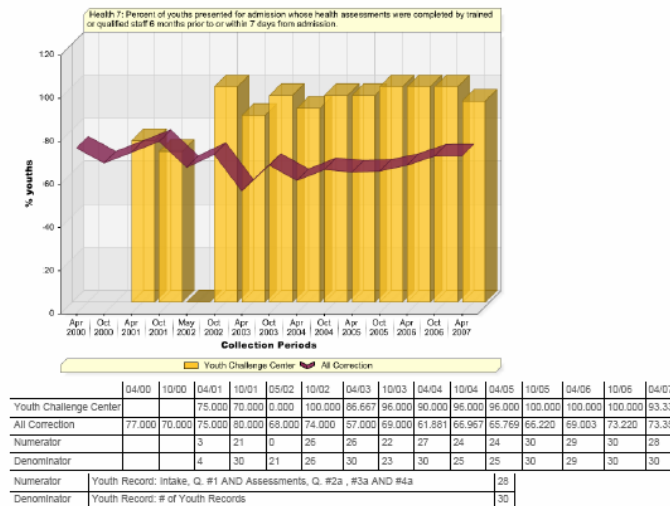

Percent of youth presented for admission whose intake screenings were completed by trained or qualified staff before they were assigned to housing units.

Percent of youth at admission whose intake screenings were completed before they were assigned housing units is 100% for both reporting periods. This is above the national average, which is 43% in October and 48% in April.

4.5.7 Health 7 Completed: Health Assessment

Percent of youth presented for admission whose health assessments were completed by trained or qualified staff within seven days.

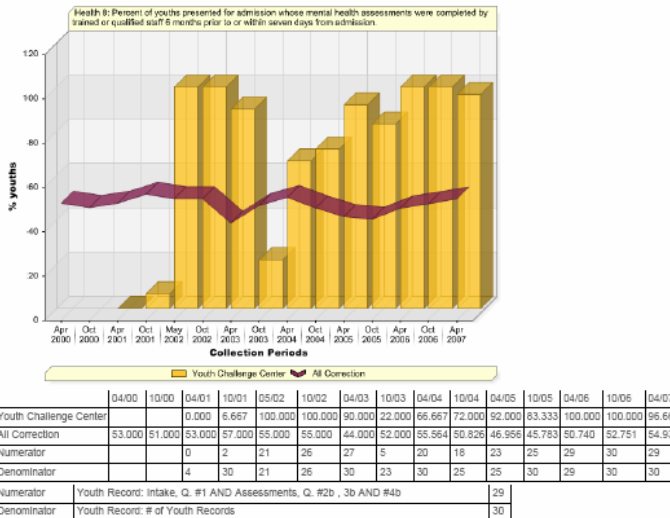

The percent of youth admitted who had health assessments completed within 7 days was 100% in October '06 and 93% in April '07. YCC has remained above the national average for this OM for the last ten data collections.

A FIP was developed for this OM in October 2001 and has been deemed successful and closed.

4.5.8 Health 8 Completed: Mental Health Assessment

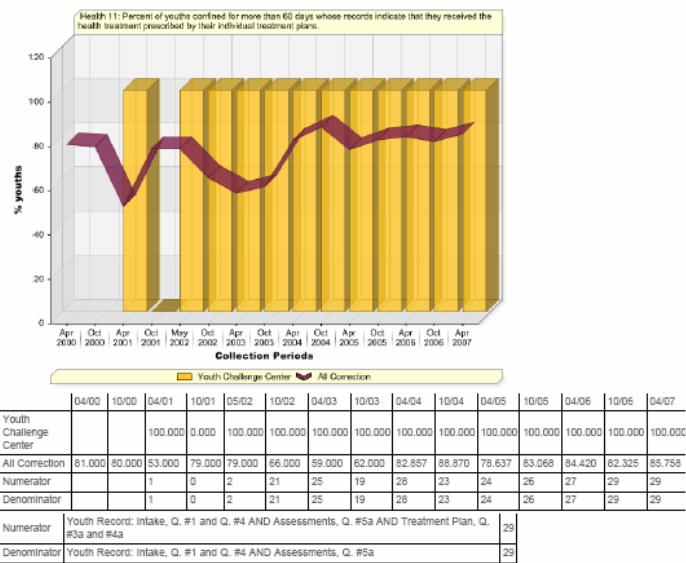

Percent of youth presented for admission whose mental health assessments were completed by trained or qualified staff within seven days.

In the YCC program, 100% of the youth had mental health assessments completed within 7 days for the October '06 data collection, and 97% for the April '07 data collection. The national averages are 53% in October and 55% in April.

4.5.9 Health 11 Health Care Treatment

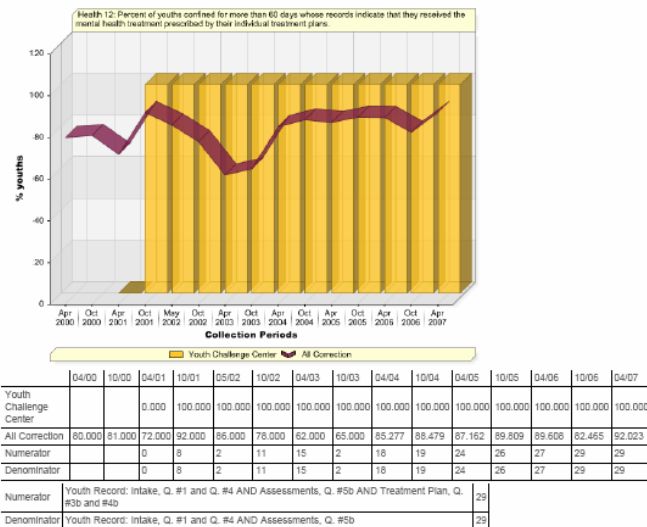

Percent of youth confined for more than 60 days whose records indicate that they received the health treatment prescribed by their individual treatment plans.

Percent of juveniles confined for over 60 days whose records indicate they received the health treatment as prescribed by their ITP has remained at 100% for the past eleven data collections. YCC continues to be above the national average for this OM, which is currently 86%.

4.5.10 Health 12 Mental Health Treatment

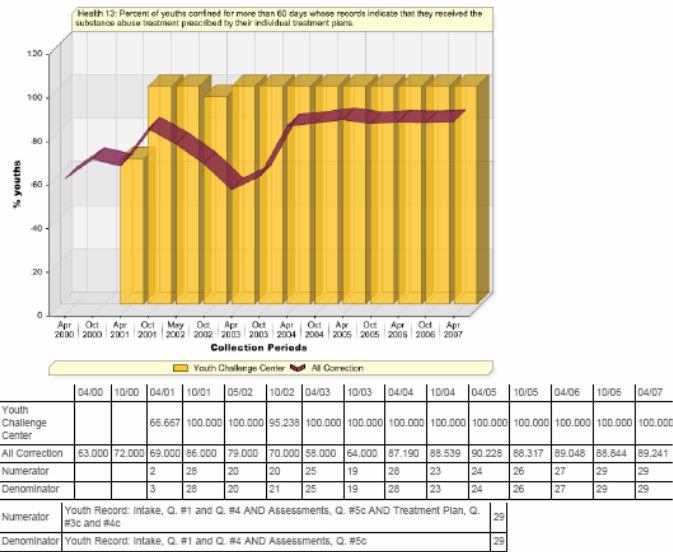

Percent of youth confined for more than 60 days whose records indicate that they received the mental health treatment prescribed by their individual treatment plans.

Percent of juveniles confined for over 60 days whose records indicate they received Mental Health treatment as prescribed by their ITP is again 100% for both October and April, and above the national average of 92%.

4.5.11 Health 13 Substance Abuse Treatment

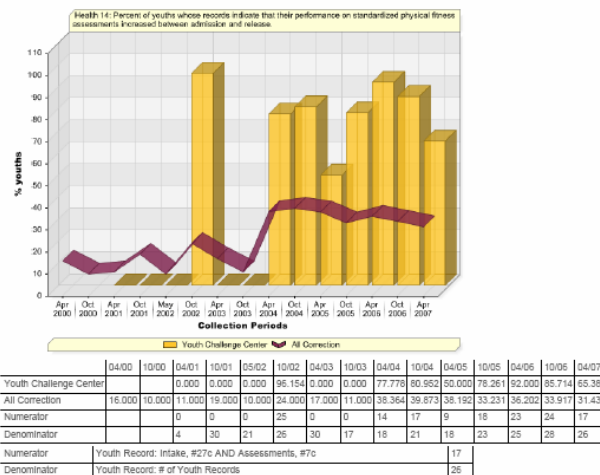

Percent of youth confined for more than 60 days whose records indicate that they received the substance abuse treatment prescribed by their individual treatment plans.

Percent of juveniles confined for over 60 days whose records indicate they received substance abuse treatment as prescribed by their ITP is again 100% for both October and April, and above the national average of 89%.

4.5.12 Health 14 Physical Fitness Assessment

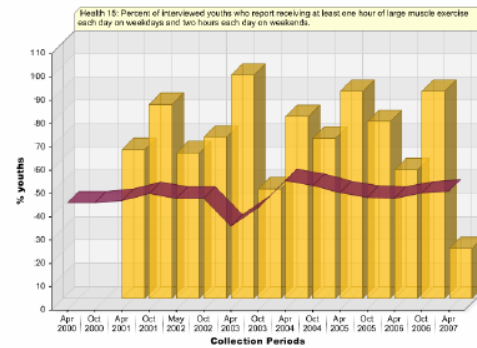

Percent of youth whose records indicate that their performance on standardized physical fitness assessments increased between admission and release.

Percent of youth whose records indicate their performance on standardized physical fitness assessments increased between admission and release is 86% for October '06. This OM decreased for April '07 to 65% compared to 31% nationally.

4.5.13 Health 15 Large Muscle Exercise

Percent of interviewed youth who report receiving at least one hour of large muscle exercise each day on weekdays and two hours each day on weekends.

	04/00	10/00	04/01	10/01	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07

In the YCC program, 93% of youth records indicate the youth received a physical fitness assessment for October '06 and 87% for April '07. This is compared to 34% and 38% nationally.

4.6 Justice

This includes grievances and legal rights.

4.6.1 Justice 1 Facility Rules and Legal Rights

Percent of interviewed youth who report understanding the facility rules and their legal rights.

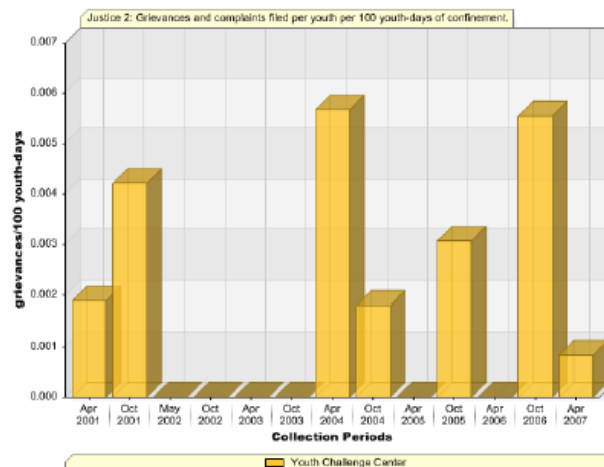

Percent of interviewed youth who report they understand facility rules and legal rights is 70% for October '06 and 65% for April '07.

A FIP was developed for this OM in May 2002, along with OM's Justice 6, Programming 20 and 21 and has been deemed successful and closed.

Numerator	Administrative Form: Justice, Q. #2												1
Denominator	Administrative Form: Youth Population												1199

4.6.3 Justice 3 Grievances and Complaints

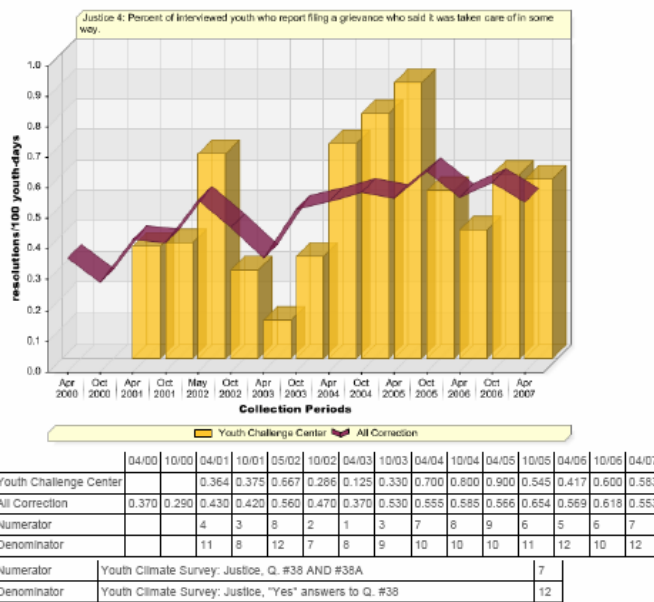

Grievances and complaints filed per staff per 100 staff days of employment.

Grievances and complaints filed per staff per 100 days of employment, remains at zero for both reporting periods.

4.6.4 Justice 4 Grievances Filed By Youth

Percent of interviewed youth who report filing a grievance and who said it was addressed.

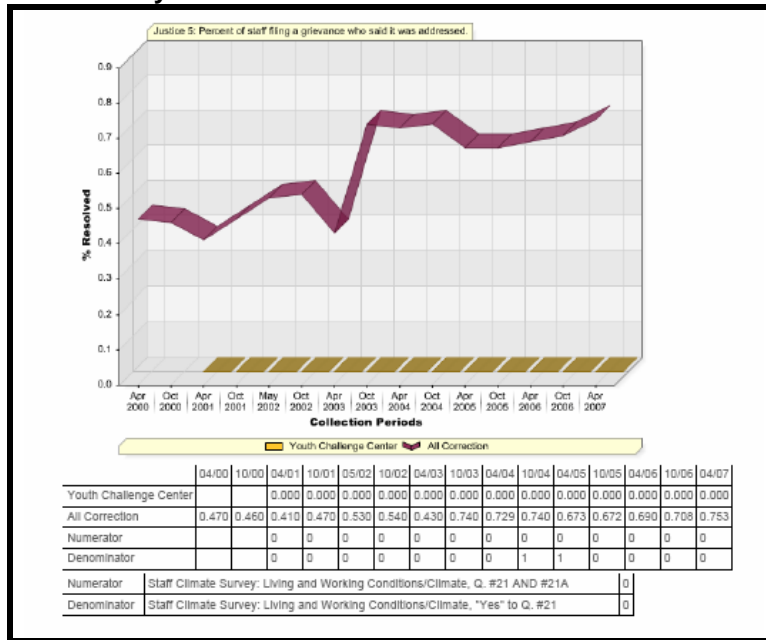

The percent of interviewed youth who report filing a grievance and said it was addressed was 60% in October '06, and 58% in April '07. The current national average for this OM is 55%.

A FIP was developed for this OM in April 2003 and has been deemed successful and closed.

4.6.5 Justice 5 Grievances Filed By Staff

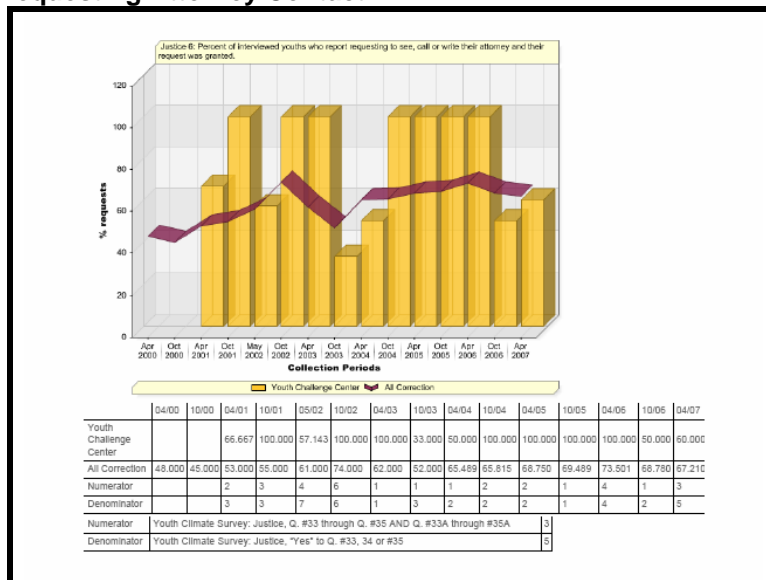

Percent of interviewed staff filing grievance who said it was addressed.

Staff filing a grievance and report that the grievance was addressed was zero for both reporting periods.

4.6.6 Justice 6 Youth Requesting Attorney Contact

Percent of interviewed youth who report requesting to see, call, or write their attorney and their request was granted.

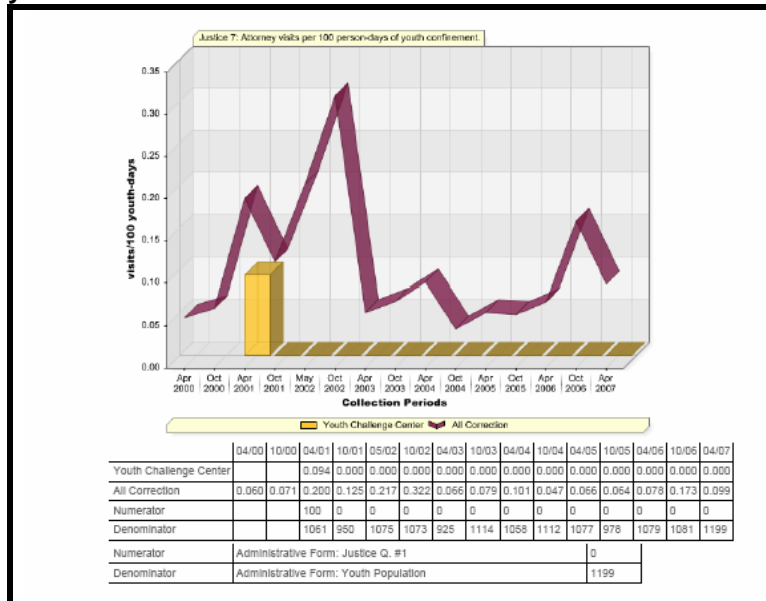

Percent of youth who requested to see, call or write their attorney and their request was granted was 50% in October '06 and 60% in April '07. The current national average for this OM is 67%.

A FIP was developed for this OM in May 2002, along with OM's Justice 1, Programming 20 and 21 and has been deemed successful and closed.

4.6.7 Justice 7 Attorney Visits

Attorney visits per 100 person days of youth confinement.

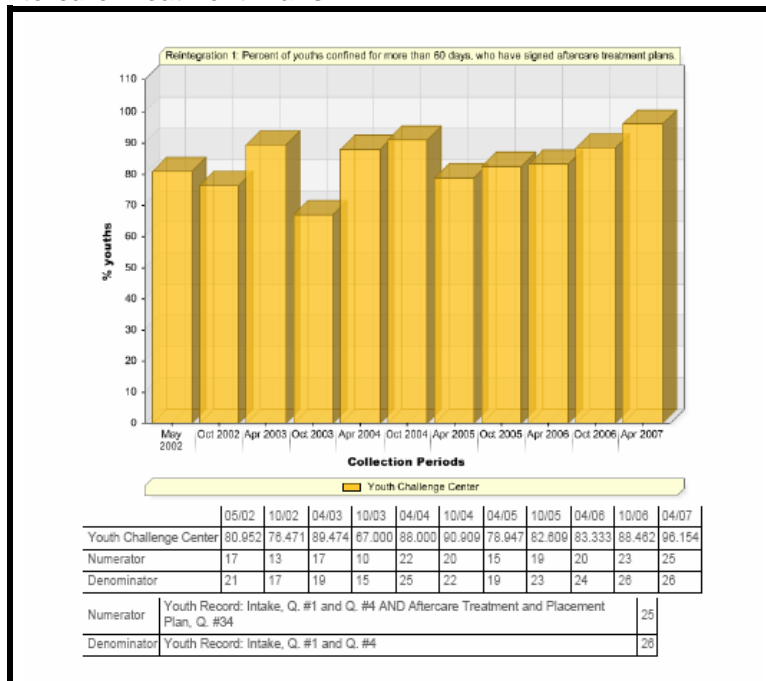

There were no attorney visits per 100 person days of youth confinement in both data collections.

4.7 Reintegration

This includes aftercare treatment plans, youth's correspondence, case manager, and community referrals.

4.7.1 Reintegration 1 Aftercare Treatment Plans

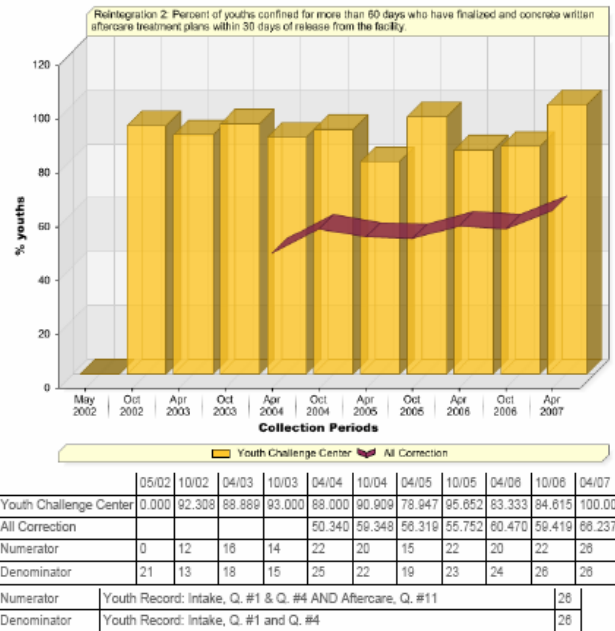

Percent of youth confined for more than 60 days who have signed aftercare treatment plans.

Percent of youth, confined for more than 60 days, who have signed aftercare treatment plans was 88% for October '06 and 96% for April '07.

4.7.2 Reintegration 2 Aftercare Treatment Plans Finalized

Percent of youth confined for more than 60 days who have finalized and concrete written aftercare treatment plans within 30 days of release from the facility.

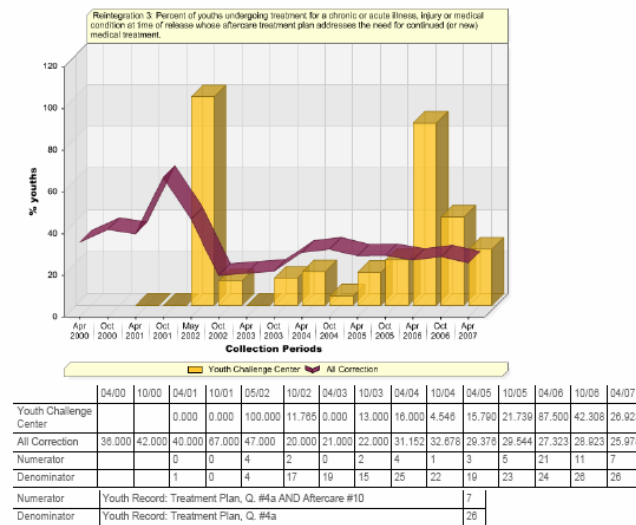

Percent of youth, confined for more than 60 days who have finalized and concrete written aftercare treatment plans prior to 30 days of release from the facility is 84% for October '06, and 100% for April '07. The current national average for this OM is 66%.

A FIP was developed for this OM in April 2004 and has been deemed successful and closed.

4.7.3 Reintegration 3 Youth Undergoing Treatment: Chronic Or Acute Illness, Injury Or Medical Condition

Percent of youth undergoing treatment for a chronic or acute illness, injury or medical condition at time of release whose aftercare treatment plan addresses the need for continued (or new) medical treatment.

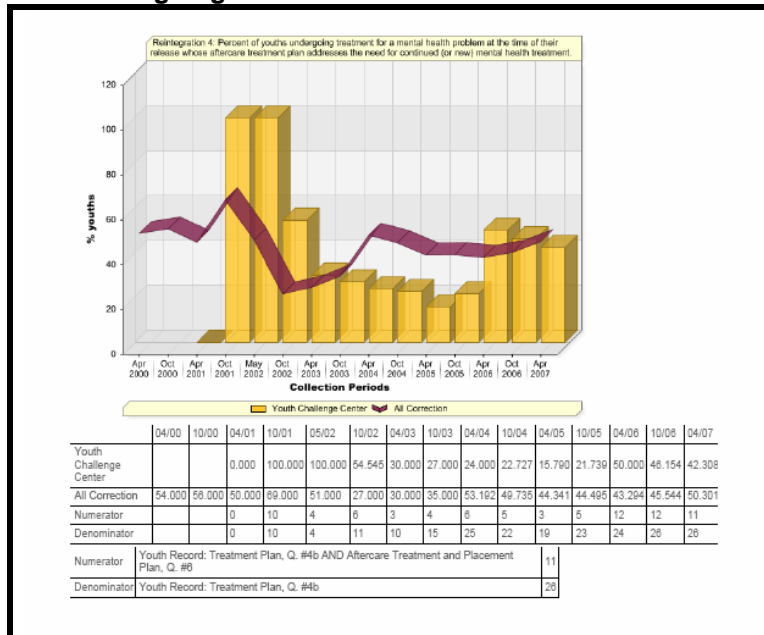

Percent of youth undergoing treatment for a chronic or acute illness, injury or medical condition at time of release whose aftercare treatment plan addressed the need for continued (or new) medical treatment is 42% for October '06 compared to 29% nationally. In April '07, this decreased to 27% compared to 26% nationally.

A FIP was developed for this OM and has been deemed successful and formally closed.

4.7.4 Reintegration 4 Youth Undergoing Treatment: Mental Health Problem

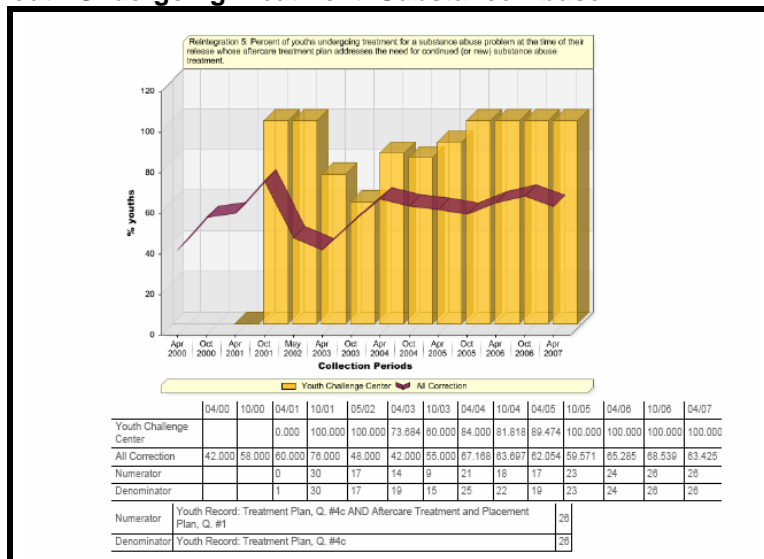

Percent of youth undergoing treatment for a mental health problem at the time of their release whose aftercare treatment plan addresses the need for continued (or new) mental health treatment.

Percent of youth undergoing treatment for a mental health problem at time of release whose aftercare treatment plan addressed the need for continued (or new) mental health treatment is 48% for October '06 and 42% for April '07. The current national average for this OM is 50%.

4.7.5 Reintegration 5 Youth Undergoing Treatment: Substance Abuse

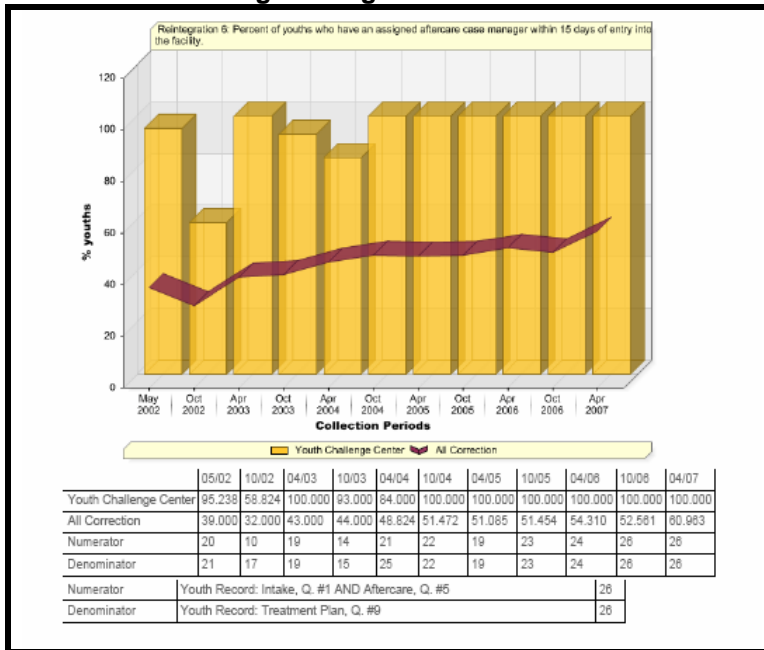

Percent of youth undergoing treatment for a substance abuse problem at the time of their release whose aftercare treatment plan addresses the need for continued (or new) substance abuse treatment.

Percent of youth undergoing treatment for a substance abuse problem at the time of release whose aftercare treatment plan addressed the need for continued (or new) substance abuse treatment remained at 100% for both reporting periods. The current national average for this OM is 63%.

4.7.6 Reintegration 6 Aftercare Case Manager Assignment

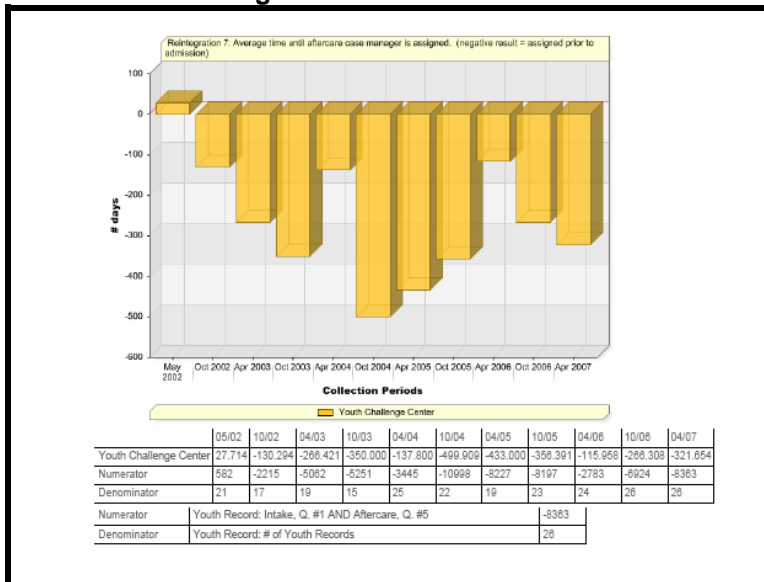

Percent of youth who have an assigned aftercare case manager within 15 days of entry into the facility.

In the YCC program, 100% of youth have an assigned aftercare case manager within 15 days of entry into the facility for both reporting periods. This is better than the national average, which is 61%.

4.7.7 Reintegration 7 Aftercare Case Manager Prior to Admission

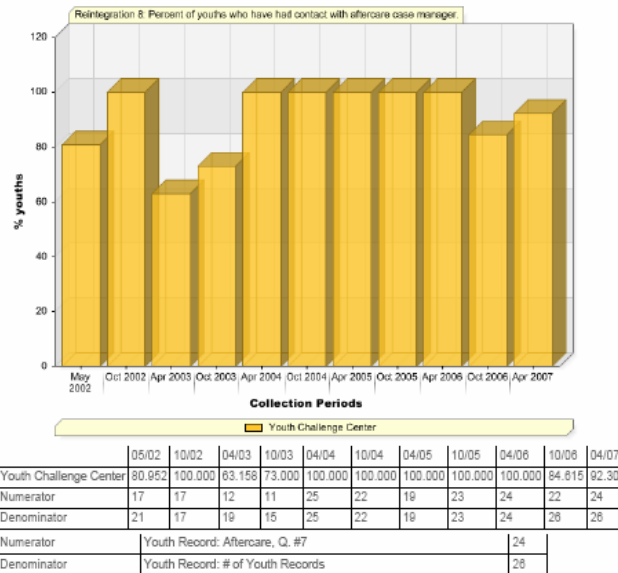

Average time until aftercare case manager is assigned. (Negative result = assigned prior to admission).

Aftercare case managers (JCA's) are assigned to youth prior to their admission to YCC.

4.7.8 Reintegration 8 Aftercare Case Manager

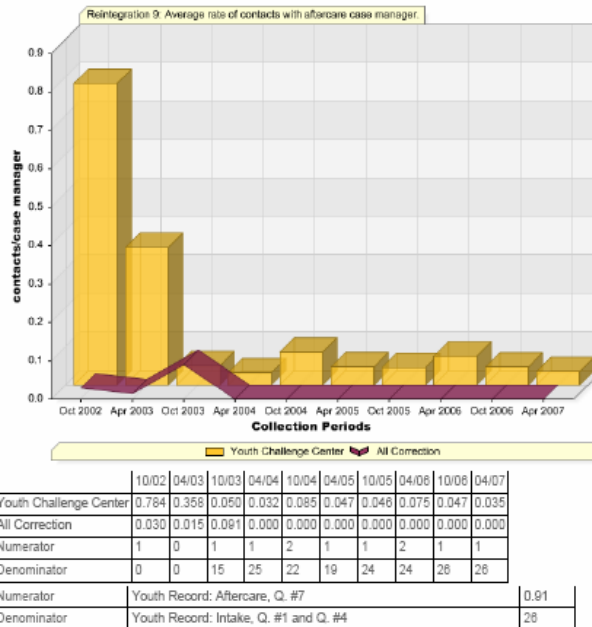

Percent of youth who have had in-person contact with aftercare case manager.

In October '06 reporting period, 84% of youth had in-person contact with their aftercare case manager and 92% in April '07.

4.7.9 Reintegration 9 Aftercare Case Manager In Person Contacts

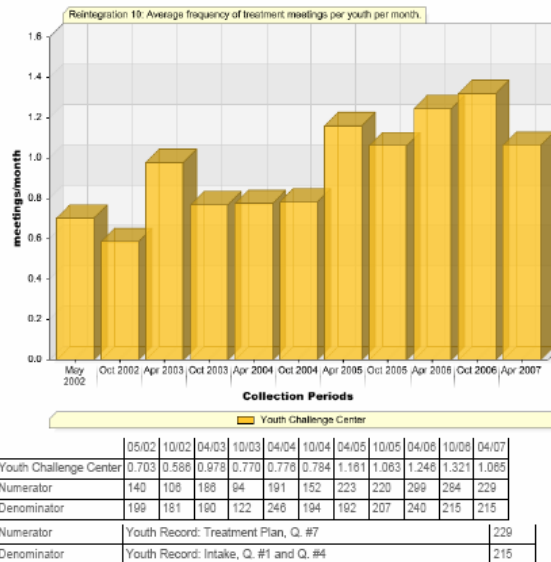

Average rate of in-person contacts with aftercare manager.

The average rate of in-person contacts with aftercare case manager decreased to .047 contacts for October '06 and .035 contacts for April '07.

4.7.10 Reintegration 10 Treatment Meeting Frequency

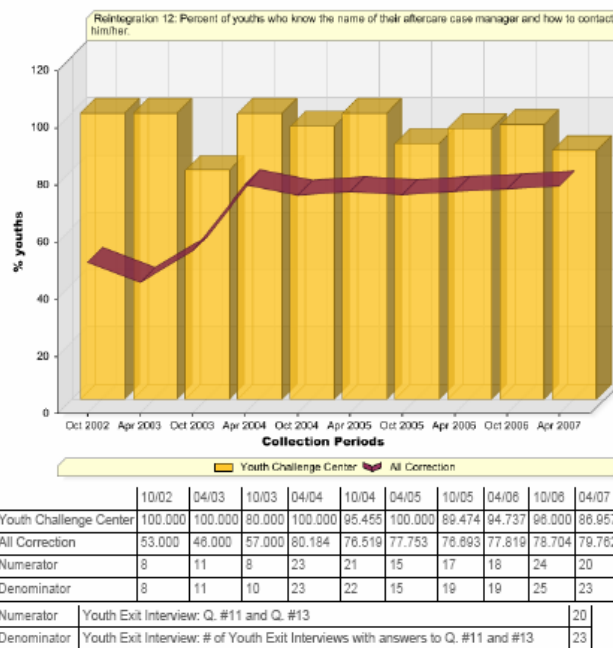

Average frequency of treatment meetings

The average frequency of treatment meetings is 1.321 per month for October '06 and 1.065 for April '07.

4.7.11 Reintegration 12 Aftercare Case Manager

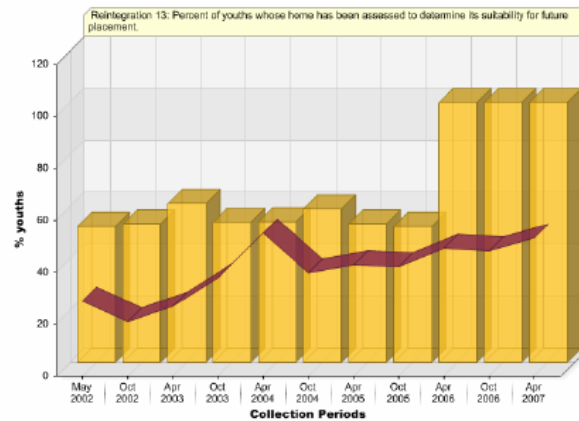

Percent of youth who know the name of their aftercare case manager and how to contact him/her.

In the YCC program, 96% of youth for October '06 and 87% of youth for April '07 know the name of their aftercare case manager and how to contact him/her. The national averages for these two data collections are 78% and 80%.

4.7.12 Reintegration 13 Home Assessment

Percent of youth whose home has been assessed to determine its suitability for future placement.

	05/02	10/02	04/03	10/03	04/04	10/04	04/05	10/05	04/06	10/06	04/07
